“Addiction
medicine
provides hope,
healing, and the
opportunity to
change.”

DAVID KAN, MD, DFASAM

ASAM member since 2006

PRESIDENT'S WELCOME

Welcome to Florida and the ASAM 53rd Annual Conference – *Innovations in Addiction Medicine and Science!* There are many opportunities to expand your horizons through engaging sessions, cutting-edge research and a full spectrum of addiction care content. Dive on in!

The 2022 program showcases robust offerings including three pre-conference courses, three general sessions, 113 scientific posters, and a wide variety of concurrent sessions. Plan to be inspired at

the Opening Plenary, motivated at the Big Ideas Plenary, and enlightened at the Policy & Science Plenary as distinguished presenters discuss topics shaping the field of addiction medicine.

Unwind between sessions at one of the many fun-networking opportunities that await by the sea! Enjoy the Shell-abrate Good Tides! Welcome Back Reception on Thursday evening. Friday join colleagues at the Ice Cream Social and the Happenin' Havana Nights Party. Don't forget to check out the Exhibit Hall during breaks to make meaningful connections for your practice!

Everyone is encouraged to attend the State of the Organization meeting on Saturday morning for important updates on ASAM activities, 2022 elections and more.

The Annual Conference Planning Committee, Pre-Course Planning Committees, presenters and ASAM staff have dedicated months of planning to create this exciting event. In order to ensure that everyone has the best possible experience, please be sure to adhere to posted health and safety guidelines. We hope you enjoy your time in the Sunshine State and connecting with old and new friends - "water you wading for"?

William F. Haning III, MD, DLFAPA, DFASAM
President, American Society of Addiction Medicine

Learning Objectives

At the conclusion of the conference, learners should be able to:

1. Identify and describe the new developments affecting the science, policy, and clinical practice of addiction medicine.
2. Compare presented clinical guidelines/best practices with the participant's current practice and identify strengths or gaps.
3. Analyze new research and science to develop practical applications for treatment or further research.
4. Explain recent and upcoming policy changes and identify implications or areas for provider involvement.
5. Create a network of professionals and a set of resources to support the participant's practice.

Fun in the Sun

Shell-abrate Good Tides! Welcome Back Reception

Great Hall 1-3, Third Floor

Thursday, March 31 | 5:30 pm – 7:30 pm

Spend a sand-tastic evening diving in to your new surroundings and reconnecting with colleagues and exhibitors.

New Member & First Time Attendee Welcome Reception

Great Hall 6 Foyer, Third Floor

Thursday, March 31 | 5:30 pm – 6:30 pm

Get ready to make a big splash! Meet and greet with fellow first timers and allow the ASAM team to help you enjoy the conference.

Stretch Out the Stress! Morning Yoga

South Palm Court, First Floor

Friday, April 1 | 7:00 am – 8:00 am

Breathe in. Breathe out. Join your colleagues for a morning of downward-facing dogs and warrior poses. All levels are welcome and mats are provided.

Ice Cream Social

Great Hall 1-3, Third Floor

Friday, April 1 | 4:00 pm – 5:00 pm

Chat with colleagues and exhibitors over a delicious ice cream treat.

Happenin' Havana Nights Party

Diplomat Landing, Across the SkyBridge

Friday, April 1 | 6:00 pm - 7:30 pm

Grab your fedora, put on festive party clothes, and join us by the scenic Intracoastal Waterway! You will be treated to South Florida's famous Cuban food specialties and an amazing sunset. Feel the rhythm of the Danzón music while you party and have fun with colleagues and friends. No passport needed!

Lunch Bunch

Great Hall Foyer, Third Floor

Saturday, April 2 | 12:30 pm – 1:30 pm

Grab a bite and grab a seat! Meet people with your same interests, practice setting, profession, and career stage. Talk about topics that matter to you.

Post of the Day #ASAMAnnual2022

Use #ASAMAnnual2022 on Facebook, Instagram, and Twitter to share your best moments from the conference. Each day we will give a prize to the top Post of the Day!

Download the ASAM Events App

The ASAM Events App is your go-to guide for all ASAM conferences and courses.

ASAM
Events

Step 1: Download the ASAM Events App

- Go to the Apple App Store or Google Play and search for "ASAM Events."
- Download the ASAM Events App and click "Open."

ASAM
ANNUAL
2022

Step 2: Open ASAM Annual 2022

- Once inside the ASAM Events App, click on "ASAM Annual 2022."
- When prompted, create a new account to access this event.

App Features:

- View slides & posters
- Star your favorite, must-see sessions
- Take notes during presentations
- Stay up to date on conference info

TIPS

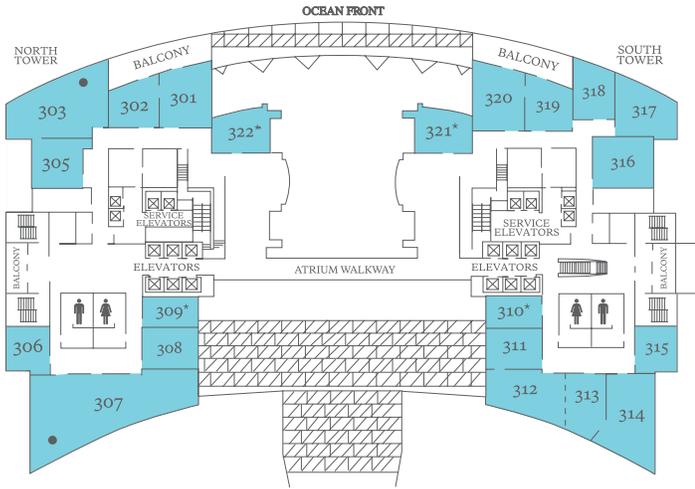

- Everyone will need to create a new account the first time they open the ASAM Annual 2022 event within the app. The new account does not need to have the same email address as was used during registration.
- If you want to log in to your account on multiple devices, use the password that was emailed to you after you created your account.
- To sync with updated conference info, locate the menu in the top right corner. Click "Refresh Schedule" in the "Your Event" section of the menu.

Don't get lost at sea!

Use the keys on this page to customize your educational experience and get the most out of the ASAM Annual Conference.

Session Type

Collaborative Sessions (CS)

Developed in collaboration with a partner organization.

Focus Sessions (FS)

Provides an in-depth look at a specific scientific or clinical topic.

General Sessions (GS)

Offers unparalleled access to national leaders.

Poster Sessions

Features scientific research on physical posters.

Workshop Session (WS)

Uses highly interactive learning formats.

Session Icons

The icons below correspond with the addiction medicine core competencies and were self-identified by session presenters during the abstract submission process. Attendees can select sessions based on their addiction medicine competency needs.

TITLE	ICON		
	INTRODUCTORY	INTERMEDIATE	ADVANCED
Patient Care			
Medical Knowledge			
Practice-Based Improvement			
Interpersonal Skills			
Professionalism			
Systems Based Practice			

Attendees should also keep an eye out for this icon, which identifies sessions on the topic of health equity.

Session Experience Level

Introductory – appropriate for learners with limited knowledge or clinical experience on this topic.

Intermediate – appropriate for learners with some knowledge and clinical experience on this topic.

Advanced – appropriate for learners with extensive knowledge and clinical experience on this topic.

“The 2021 Conference offered lifesaving educational resources.”

Schedule-at-a-Glance

The full conference schedule (including speaker information, presentation slides, and more) is available on the conference website (<https://bit.ly/ASAM2022Schedule>) and in the ASAM Events app.

Pre-Conference Activities

Tuesday, March 29, 2022

6:00 pm – 9:00 pm	Board of Directors Meeting	33 rd Floor Lounge, 33 rd Floor
-------------------	----------------------------	---

Wednesday, March 30, 2022

8:30 am – 5:00 pm	Board of Directors Meeting	33 rd Floor Lounge, 33 rd Floor
5:00 pm – 6:00 pm	Fundamentals Workshop Faculty Meeting	317 Conference Room, Third Floor
	Motivational Interviewing Planning Committee Meeting	316 Conference Room, Third Floor
	Pain & Addiction: Common Threads Course Faculty Meeting	319 Conference Room, Third Floor
	Ruth Fox Endowment Scholarship Recipients Meeting	303 Conference Room, Third Floor
5:00 pm – 8:00 pm	ASAM Registration & Education Desk Open	Grand Ballroom Foyer, Second Floor
6:00 pm – 9:00 pm	Board of Directors Dinner <i>(By Invitation Only)</i>	33 rd Floor Lounge, 33 rd Floor
9:00 pm – 10:00 pm	Mutual Help	302 Conference Room, Third Floor

Thursday, March 31, 2022

6:30 am – 7:30 am	Mutual Help	302 Conference Room, Third Floor
7:00 am – 8:00 pm	ASAM Registration & Education Desk Open	Grand Ballroom Foyer, Second Floor
7:00 am – 8:00 am	Pre-Conference Course/Workshop Continental Breakfast	Pre-Conference Course/Workshop Rooms, Second Floor
8:00 am – 5:30 pm	ASAM Fundamentals of Addiction Medicine Workshop – (8 CME)	Regency Ballroom, Second Floor
	ASAM Motivational Interviewing Workshop – (8 CME)	Atlantic Ballroom 2&3, Second Floor
	Pain & Addiction: Common Threads XXIII Course – (8 CME)	Grand Ballroom West, Second Floor
3:00 pm – 7:00 pm	ASAM Booth Open	Great Hall Foyer, Third Floor

Annual Conference Begins

5:30 pm – 6:30 pm	New Member & First Time Attendee Welcome Reception	Great Hall Foyer 6, Third Floor	
5:30 pm – 7:30 pm	Exhibit Hall Open	Great Hall 1-3, Third Floor	
	Shell-abrate Good Tides! Welcome Back Reception	Great Hall 1-3, Third Floor	
6:30 pm – 8:00 pm	President's Ruth Fox Reception for Awardees and Donors <i>(By Invitation Only)</i>	33 rd Floor Lounge, 33 rd Floor	
7:30 pm – 8:30 pm	Becoming Certified in Addiction Medicine and How to Continue That Certification – CS (1 CME)	Grand Ballroom West, Second Floor	
	Developing Addiction Medicine Fellowships – CS (1 CME)	Regency Ballroom, Second Floor	
	Navigating the Osteopathic Addiction Medicine Certification Exam – CS (1 CME)	Atlantic Ballroom 2&3, Second Floor	
	Child & Adolescent Addiction Special Interest Group Meeting	Atlantic Ballroom 1, Second Floor	
	Criminal Justice Special Interest Group Meeting	Diplomat Ballroom 3-5, Second Floor	
	Nicotine & Tobacco Issues Special Interest Group Meeting	Diplomat Ballroom 1&2, Second Floor	
	Women & SUDs Special Interest Group Meeting	Grand Ballroom East, Second Floor	
8:00 pm – 10:00 pm	Chapter Leadership & Policy Roundtable Meeting	303 Conference Room, Third Floor	
9:00 pm – 10:00 pm	Mutual Help	302 Conference Room, Third Floor	

Schedule-at-a-Glance

Friday, April 1, 2022

6:30 am – 7:30 am	Mutual Help	302 Conference Room, Third Floor	
7:00 am – 8:00 am	Medical Toxicology Special Interest Group Meeting	Atlantic Ballroom 1, Second Floor	
	Opioid Treatment Program Special Interest Group Meeting	Diplomat Ballroom 1&2, Second Floor	
	Physicians Health Program Special Interest Group Meeting	Diplomat Ballroom 3-5, Second Floor	
	Ruth Fox Endowment Scholarship Recipients Meeting	303 Conference Room, Third Floor	
	Stretch Out the Stress! Morning Yoga	South Palm Court, First Floor	
7:00 am – 6:00 pm	ASAM Registration & Education Desk Open	Grand Ballroom Foyer, Second Floor	
7:30 am – 8:30 am	Continental Breakfast	Great Hall Foyer, Third Floor	
8:00 am – 5:00 pm	ASAM Booth Open	Great Hall Foyer, Third Floor	
8:30 am – 10:00 am	 Opening Scientific Plenary & Distinguished Scientist Lecture – GS (1.5 CME)	Great Hall 4-6, Third Floor	 
10:00 am – 10:30 am	Refreshment Break	Great Hall 1-3, Third Floor	
	Speaker Meet & Greet	ASAM Booth, Great Hall Foyer, Third Floor	
10:00 am – 5:00 pm	Exhibit Hall Open	Great Hall 1-3, Third Floor	
10:30 am – 11:30 am	Advances in Treatments for Methamphetamine Use Disorder – CS (1 CME)	Regency Ballroom, Second Floor	
	Buprenorphine Dose Limits - What Is The Evidence? – FS (1 CME)	Grand Ballroom East, Second Floor	  
	Cannabis Use in Pregnancy: Person-Centered Perspectives – FS (1 CME)	Atlantic Ballroom 2&3, Second Floor	 
	How We Built This: Improving Treatment Access and Engagement for Hispanic/Latinx Patients – FS (1 CME) 	Diplomat Ballroom 3-5, Second Floor	
	Medication in Opioid Courts: Reducing Overdose Through Triage in Court Settings – FS (1 CME)	Diplomat Ballroom 1&2, Second Floor	
	Precipitated Withdrawal 2.0: Outpatient Tips and Tricks – WS (1 CME)	Great Hall 4-6, Third Floor	 
	Tobacco Cessation: Evidence-based Guidelines for Practitioners – FS (1 CME)	Grand Ballroom West, Second Floor	 
11:30 am – 12:45 pm	Lunch Break	Great Hall 1-3, Third Floor	
11:30 am – 1:00 pm	Scientific Poster Session 1 – (1.5 CME)	Great Hall Foyer, Third Floor	
12:00 pm – 12:30 pm	Social Workers & Counselors Meet-Up	ASAM Booth, Great Hall Foyers, Third Floor	
1:00 pm – 2:30 pm	 Big Ideas Plenary - Operationalizing Racial Justice and Equity in Healthcare – GS (1.5 CME) 	Great Hall 4-6, Third Floor	  
2:30 pm – 3:00 pm	Networking Break	Great Hall 1-3, Third Floor	
3:00 pm – 4:00 pm	Addiction Medicine in Healthcare Education - Listening to Students and Facilitating Faculty – WS (1 CME)	Atlantic Ballroom 2&3, Second Floor	  
	How to Implement Low-Dose Buprenorphine Initiation in Your Practice: A Case-Based Workshop – WS (1 CME)	Regency Ballroom, Second Floor	 
	Meeting People Where They Are: Corrections, Telehealth, and OUD – FS (1 CME)	Grand Ballroom East, Second Floor	  
	Naloxone: What You Need to Know – FS (1 CME)	Great Hall 4-6, Third Floor	 
	The Next Chapter: A Discussion on the Next Edition of The ASAM Criteria – CS (1 CME)	Diplomat Ballroom 3-5, Second Floor	
	Virtual is Now Reality: Telehealth to Deliver Care for Substance Use Disorders – WS (1 CME)	Grand Ballroom West, Second Floor	  

Schedule-at-a-Glance

4:00 pm – 4:45 pm	ASAM Fellows (FASAM) Meet-Up	ASAM Booth, Great Hall Foyer, Third Floor	
4:00 pm – 5:00 pm	Ice Cream Social	Great Hall 1-3, Third Floor	
5:00 pm – 6:00 pm	An Organizational Framework for Approaching Patients with OUD and Painful Serious Illness – WS (1 CME)	Great Hall 4-6, Third Floor	
	Drug Use in Hospital Settings: Why it Happens and How We Respond – WS (1 CME)	Regency Ballroom, Second Floor	
	History of the Stigma & Criminalization of OUD and its Treatment – FS (1 CME)	Atlantic Ballroom 2&3, Second Floor	
	Supporting Birthing People and Families During COVID; Tools for Buprenorphine and Methadone – WS (1 CME)	Grand Ballroom West, Second Floor	
	The Impact of COVID on Alcohol Use Disorder: Epidemiology and Treatment – CS (1 CME)	Grand Ballroom East, Second Floor	
	Treat Addiction, Save Lives: The History of the American Society of Addiction Medicine – FS (1 CME)	Diplomat Ballroom 3-5, Second Floor	
	Widening the Net: Engaging Sexual and Gender Minority Youth in Addiction Treatment – WS (1 CME)	Diplomat Ballroom 1&2, Second Floor	
6:00 pm – 7:30 pm	Happenin' Havana Nights Party	Diplomat Landing, Across the Skybridge	
7:30 pm – 8:30 pm	Addiction Consult Special Interest Group Meeting	Diplomat Ballroom 3-5, Second Floor	
	Annual Conference Program Planning Committee Meeting	319 Conference Room, Third Floor	
	Journal of Addiction Medicine Editorial Meeting	316 Conference Room, Third Floor	
	Primary Care & Family Medicine Special Interest Group Meeting	Diplomat Ballroom 1&2, Second Floor	
	Twelve Step Recovery Special Interest Group Meeting	Atlantic Ballroom 1, Second Floor	
9:00 pm – 10:00 pm	Mutual Help	302 Conference Room, Third Floor	

Saturday, April 2, 2022

6:30 am – 7:30 am	Mutual Help	302 Conference Room, Third Floor	
7:00 am – 8:30 am	Continental Breakfast	Great Hall Foyers, Third Floor	
7:00 am – 5:30 pm	ASAM Registration & Education Desk Open	Grand Ballroom Foyer, Second Floor	
7:45 am – 8:15 am	ASAM: State of the Organization	Great Hall 4-6, Third Floor	
8:00 am – 5:00 pm	ASAM Booth Open	Great Hall Foyer, Third Floor	
8:30 am – 10:00 am	Policy & Science Plenary Session - Expanding Access to Care Through Telehealth: Lessons Learned During the Pandemic – GS (1.5 CME)	Great Hall 4-6, Third Floor	
10:00 am – 11:30 am	Exhibit Hall Open	Great Hall 1-3, Third Floor	
	Refreshment Break	Great Hall 1-3, Third Floor	
	Scientific Poster Session 2 – (1.5 CME)	Great Hall Foyer, Third Floor	
10:15 am – 11:15 am	Public Policy Committee Meeting	316 Conference Room, Third Floor	
11:30 am – 12:30 pm	Beyond the Lecture: Leading and Engaging Learners in Addiction Medicine Education – WS (1 CME)	Diplomat Ballroom 1&2, Second Floor	
	Bridging the Gap Between Science and Clinical Practice in Addiction Medicine – CS (1 CME)	Diplomat Ballroom 3-5, Second Floor	
	Cannabis: Products, Health Impact, Policies and Intervention – FS (1 CME)	Grand Ballroom East, Second Floor	
	Clinical Characterization of Kratom: Is it a Craze or Here to Stay? – FS (1 CME)	Regency Ballroom, Second Floor	

Schedule-at-a-Glance

11:30 am – 12:30 pm	Continuum of Micro-dosing : Applying a Novel Technique Across a Healthcare System – FS (1 CME)	Grand Ballroom West, Second Floor	
	Focus on Phenobarbital: Applications for Alcohol and Sedative-Hypnotic Withdrawal – FS (1 CME)	Great Hall 4-6, Third Floor	
	Population Health Approach to Opioid Use Disorder: Can It Change The Game? – FS (1 CME)	Atlantic Ballroom 2&3, Second Floor	
12:30 pm – 1:15 pm	Nurses, Nurse Practitioners, & Physician Assistants Meet-Up	ASAM Booth, Great Hall Foyer, Third Floor	
12:30 pm – 1:30 pm	Lunch Bunch	Great Hall Foyer, Third Floor	
1:30 pm – 2:30 pm	Changes To Treatment Regulations During And After The COVID-19 Public Health Emergency – CS (1 CME)	Great Hall 4-6, Third Floor	
	Low-Dose Buprenorphine Inductions: Options and Innovations – WS (1 CME)	Grand Ballroom East, Second Floor	
	Mentoring Women Graduate Students Seeking a Career in Substance Use Disorder Research – FS (1 CME)	Diplomat Ballroom 3-5, Second Floor	
	Opioid Use Disorder in the Perinatal Population: Reviewing Evidence-Based Care Models and Best Practices – WS (1 CME)	Grand Ballroom West, Second Floor	
	The Good, Bad and Ugly: Drug Testing in Liver Transplant Evaluations – FS (1 CME)	Diplomat Ballroom 1&2, Second Floor	
	The Inner Work of Caring for Individuals with Severe Substance Use Disorders – WS (1 CME)	Regency Ballroom, Second Floor	
	WTF - Methadone: What is the Future? – FS (1 CME)	Atlantic Ballroom 2&3, Second Floor	
	2:30 pm – 3:00 pm	Beach Break	Beachfront, First Floor
3:00 pm – 4:00 pm	5 Tips for Teaching Trainees about SUD in Integrated Clinic Settings – WS (1 CME)	Diplomat Ballroom 1&2, Second Floor	
	Alcohol Withdrawal Management: Beyond Benzos – FS (1 CME)	Regency Ballroom, Second Floor	
	Annual Review of Addiction Medicine: Highest Impact Publications from 2021-2022 – FS (1 CME)	Great Hall 4-6, Third Floor	
	How iOAT Care Could Be Improved?: Providers Perspectives on Clients' Needs – FS (1 CME)	Diplomat Ballroom 3-5, Second Floor	
	Leveraging Community Harm Reduction Services to Provide Mobile Primary Care/SUD Treatment – FS (1 CME)	Atlantic Ballroom 2&3, Second Floor	
	Methamphetamine Use Disorder in Pregnancy – FS (1 CME)	Grand Ballroom East, Second Floor

	Toxicology Topics: Drug Levels for Buprenorphine: Efficacy, Diversion, and Compliance – WS (1 CME)	Regency Ballroom, Second Floor	
12:00 pm	Official Close of the ASAM 53rd Annual Conference! See you next year from April 13 - 16, 2023!		

“This was the best conference I have attended in years. Thank you for the work you have done to put on such a high caliber event.”

ASAM FUNDAMENTALS™ of Addiction Medicine | Workshop

Thursday, March 31, 2022
8:00 am – 5:30 pm
Regency Ballroom, Second Floor
(Separate Registration Required)

OVERVIEW

The ASAM Fundamentals of Addiction Medicine is an innovative, case-based, interactive workshop for providers who are new to seeing patients at risk or treating patients with addiction. Participants receive an overview of the basics of addiction medicine, which covers how to screen, diagnose, treat, and/or refer patients with addiction, many of whom have co-occurring medical and psychiatric comorbidities.

At this live, energetic and interactive workshop, attendees will work through session activities and cases presented by faculty with participants at their table. Sessions throughout the day will include approximately equal parts lecture, demonstration of skills and skill building.

LEARNING OBJECTIVES

Upon completion of this educational activity, learners should be able to:

1. Identify one's own feelings and attitudes that promote or prevent therapeutic responses to patients with substance use disorders.
2. Apply the philosophy of harm reduction to enhance patient centered care for people with substance use disorders.
3. Demonstrate a knowledge of the neurobiological changes that occur during addiction.
4. Use motivational interviewing to enhance patient's readiness to change unhealthy behaviors.
5. Use validated patient screening tools to detect substance use and interpret a spectrum of results.
6. Conduct substance use assessments using the DSM-5 criteria and including a biopsychosocial approach.
7. Offer evidence-based pharmacotherapy and behavioral interventions that are appropriate to specific substances and usage patterns.

SCHEDULE

7:00 am – 8:00 am

Breakfast

8:00 am – 9:00 am

Session 1: An Introduction to Addictive Disorders
Elizabeth Salisbury-Afshar, MD, MPH, FAAFP, FACPM, DFASAM
Brandon George

9:00 am – 9:45 am

Session 2: The Clinical Manifestations of the Neurobiology of Addiction
Lipi Roy, MD, MPH, FASAM

9:45 am – 10:15 am

Session 3: A Brief Overview of Motivational Interviewing Basics

Kathryn Basques, MSW, MSN, APN, PMHNP-BC
Amy Parins, DMSc, PA-C

10:15 am – 10:30 am

Refreshment Break

10:30 am – 11:25 am

[Continued] Session 3: A Brief Overview of Motivational Interviewing Basics

Kathryn Basques, MSW, MSN, APN, PMHNP-BC
Amy Parins, DMSc, PA-C

11:25 am – 12:00 pm

Session 4: Screening, Brief Intervention, and Referral to Treatment (SBIRT)

J. Paul Seale, MD, FASAM

12:00 pm – 1:00 pm

Lunch

1:00 pm – 2:10 pm

[Continued] Session 4: Screening, Brief Intervention, and Referral to Treatment (SBIRT)

J. Paul Seale, MD, FASAM

2:10 pm – 3:00 pm

Session 5: Identifying Unhealthy Substance Use: Assessment

Abby S. Letcher, MD, FASAM
Kathryn Basques, MSW, MSN, APN, PMHNP-BC
Brandon George

3:00 pm – 3:30 pm

Session 6: Treating Substance Use Disorders with Medication and Counseling

Kirk D. Moberg, MD, PhD, FACP, FACPE, CPE, DFASAM
Kathryn Basques, MSW, MSN, APN, PMHNP-BC

3:30 pm – 3:45 pm

Refreshment Break

3:45 pm – 5:20 pm

[Continued] Session 6: Treating Substance Use Disorders with Medication and Counseling

Kirk D. Moberg, MD, PhD, FACP, FACPE, CPE, DFASAM
Kathryn Basques, MSW, MSN, APN, PMHNP-BC

5:20 pm – 5:30 pm

Review and Workshop Wrap-Up

Elizabeth Salisbury-Afshar, MD, MPH, FAAFP, FACPM, DFASAM

CONTINUING MEDICAL EDUCATION CREDIT & MOC

ACCME Accreditation Statement

The American Society of Addiction Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AMA Credit designation Statement

The American Society of Addiction Medicine designates this live activity for a maximum of **8 AMA PRA Category 1 Credit(s)TM**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Academy of Family Physicians (AAFP)

The AAFP has reviewed The ASAM Fundamentals of Addiction Medicine Workshop, and deemed it acceptable for up to 8 In-Person, Live (could include online) AAFP Prescribed credit. Term of approval is from 02/17/2022 to 02/17/2023. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Academy of Physician Assistants (AAPA)

This activity has been reviewed by the AAPA Review Panel and is compliant with AAPA CME Criteria. This activity is designated for 8 AAPA Category 1 CME credits. PAs should only claim credit commensurate with the extent of their participation. Approval is valid from 2/17/2022 to 2/17/2023. AAPA reference number: CME-204325.

American Association of Nurse Practitioners (AANP)

This education activity will be submitted to the American Association of Nurse Practitioners for approval of up to 8 contact hours of accredited education.

ASAM MOTIVATIONAL INTERVIEWING Workshop

Thursday, March 31, 2022
8:00 am – 5:30 pm
Atlantic Ballroom 2&3, Second Floor
(Separate registration required)

OVERVIEW

The ASAM Motivational Interviewing Workshop is an interactive and engaging workshop that introduces and expands participants' knowledge on utilizing Motivational Interviewing (MI) in an addiction treatment setting. MI is a goal-oriented, collaborative counseling style that evokes a person's own motivations for and commitment to change.

Physicians, clinicians, counselors, and all those working with patients with addiction often find that one of the main barriers to effective treatment is the patients' perceived lack of motivation to make changes. Without motivation on the patient's part, making or sustaining progress with treatment goals can be difficult. MI is one technique that treatment providers can utilize to help patients make positive changes.

Participants of this workshop will be introduced to the key concepts and skills of MI and explore ways to effectively integrate MI into addiction treatment to help promote positive patient outcomes.

LEARNING OBJECTIVES

Upon completion of this educational activity, learners should be able to:

1. Apply the spirit of MI to clinical practice.
2. Organize clinical communications attending to the four foundational processes of MI (engaging, focusing, evoking, and planning).
3. Compare and contrast MI congruent interactions with MI dissonant interactions.
4. Recognize, respond and evoke to change talk and understand sustain talk.
5. Apply the basic MI skills of open-ended questions, affirmations, reflective listening, and summaries to selectively reinforce change talk.
6. Identify further training opportunities for practicing the skills of MI.

SCHEDULE

7:00 am – 8:00 am

Breakfast

8:00 am – 9:30 am

Capturing the Spirit: An Introduction to MI
Brian Hurley, MD, MBA, DFASAM
Carla Marienfeld, MD, FAPA, FASAM

9:30 am – 10:15 am

Building the Foundation: The Four Processes
Brian Hurley, MD, MBA, DFASAM
Carla Marienfeld, MD, FAPA, FASAM

10:15 am – 10:30 am

Refreshment Break

10:30 am – 11:00 am

[Continued] Building the Foundation: The Four Processes
Brian Hurley, MD, MBA, DFASAM
Carla Marienfeld, MD, FAPA, FASAM

11:00 am – 12:00 pm

It's All About Change Talk
Brian Hurley, MD, MBA, DFASAM
Carla Marienfeld, MD, FAPA, FASAM

12:00 pm – 1:00 pm

Lunch

1:00 pm – 3:30 pm

Applying Skills: Using OARS, Informing, and Advising
Brian Hurley, MD, MBA, DFASAM
Carla Marienfeld, MD, FAPA, FASAM

3:30 pm – 3:45 pm

Refreshment Break

3:45 pm – 5:15 pm

It's Your Journey: Learning MI, Overcoming Barriers, and Creating a Practice Implementation Plan
Brian Hurley, MD, MBA, DFASAM
Carla Marienfeld, MD, FAPA, FASAM

5:15 pm – 5:30 pm

Review and Workshop Wrap-Up
Brian Hurley, MD, MBA, DFASAM

“I will keep on attending, wonderful to meet other providers doing the same thing as me.”

ASAM PAIN & ADDICTION

Common Threads XXIII

Thursday, March 31, 2022
8:00 am - 5:30 pm
Grand Ballroom West,
Second Floor
(*Separate registration required*)

OVERVIEW

Interdisciplinary care for patients with pain and addiction in the virtual age

The ASAM Pain & Addiction: Common Threads Course is one of ASAM's longest running and most popular courses. This advanced course increases learners' understanding of complex topics and improves treatment of patients who fall somewhere in the gray area around pain and addiction. Participants will learn new research developments that affect treatment, and how to integrate these techniques into their own practices. This year's course will utilize a dynamic mix of teaching methods to engage an advanced audience.

LEARNING OBJECTIVES

Upon completion of this educational activity, learners should be able to:

1. Describe new challenges in pain and addiction that have arisen from the COVID-19 pandemic.
2. Identify strategies to build resilience among healthcare teams and patients.
3. Differentiate between various interdisciplinary care models for treating patients with pain and addiction and explain the purpose of utilizing an interdisciplinary care team.
4. Describe common ways patients may be using Kratom as an alternative method for treatment of pain.
5. Compare different treatment options for patients who cannot tolerate buprenorphine.
6. Implement practical strategies and principles of a successful virtual pain and addiction assessment.
7. Question the disparities in access to telemedicine that exists within the US and recognize the current and future telemedicine policies that affect patients' access to treatment.
8. Recognize the complex relationship between stimulants and chronic pain.
9. Assess the current fentanyl epidemic and discuss promising treatment and harm-reduction practices.
10. Compare key pain and addiction research publications from 2021-2022 and identify their relevance to practice.

SCHEDULE

7:00 am – 8:00 am

Breakfast

8:00 am – 8:15 am

Course Welcome & Introductions

William F. Haning III, MD, DLFAPA, DFASAM

William S. Jacobs, Jr, MD, FASAM

8:15 am – 9:15 am

New Challenges in Pain & Addiction Arising from the COVID-19 Pandemic

ANNUAL CONFERENCE BEGINS

5:30 pm – 6:30 pm

New Member & First Time Attendee Welcome Reception
Great Hall Foyer 6, Third Floor
Get ready to make a big splash! Meet and greet with fellow first timers and allow the ASAM team to help you enjoy the conference.

5:30 pm – 7:30 pm

Exhibit Hall Open
Great Hall 1-3, Third Floor

Shell-abrate Good Tides! Welcome Back Reception

Great Hall 1-3, Third Floor
Spend a sand-tastic evening diving in to your new surroundings and reconnecting with colleagues and exhibitors.

6:30 pm – 8:00 pm

President's Ruth Fox Reception for Awardees and Donors
(By Invitation Only)
33rd Floor Lounge, 33rd Floor

7:30 pm – 8:30 pm

Collaborative Session – 1 CME
Becoming Certified in Addiction Medicine and How to Continue That Certification
Grand Ballroom West, Second Floor
Michael F. Weaver, MD, DFASAM; Christopher J. Ondrula, JD
Developed in Cooperation with the American Board of Preventive Medicine (ABPM)
Physicians who are or have previously been certified by a Member Board of the American Board of Medical Specialties can now become certified in the subspecialty of Addiction Medicine by the American Board of Preventive Medicine (ABPM). This session will review the requirements and various pathways available for physicians to apply to sit for the Addiction Medicine subspecialty exam. Information will be provided for attendees who are already certified in Addiction Medicine by ABPM about updates to the maintenance of certification (MOC) platform and the ABPM's transition to an innovative and flexible Continuing Certification Program (CCP).

Developing Addiction Medicine Fellowships

Regency Ballroom, Second Floor

Andrew A. Danzo; Jeanette M. Tetrault, MD, FACP, DFASAM; Timothy K. Brennan, MD, MPH

Developed in Cooperation with the American College of Academic Addiction Medicine (ACAAM)

This session offers an in-depth review of addiction medicine fellowship programs and practical information for those who are interested in developing a new program or pursuing fellowship training. Topics addressed will include recent developments, such as the introduction of virtual meetings, didactics, and related activities to help promote collaboration and group learning in the growing academic addiction medicine community. For providers who are interested in pursuing fellowship training, the presenters will offer an inside view of the type of clinical experiences and educational activities that can be expected.

Collaborative Session – 1 CME

Navigating the Osteopathic Addiction Medicine Certification Exam

Atlantic Ballroom 2&3, Second Floor

Marla Kushner, DO, FSAHM, FACOFP, DFASAM; Anthony H. Dekker, DO, FAOAM, DFASAM; Nina A. Vidmer

Developed in Cooperation with the American Osteopathic Academy of Addiction Medicine (AOAAM)

The presentation will focus on the certification exam as administered by the American Osteopathic Conjoint Examination Committee on Addiction Medicine and the subspecialty certification exams and osteopathic continuous certification (recertification) examinations. The panel will discuss the application process and best practices on sitting for the exam. Presenters will answer questions from audience members interested in this opportunity for certification.

Advances in Treatments for Methamphetamine Use Disorder

Regency Ballroom, Second Floor

Madhukar H. Trivedi, MD; Kathleen T. Brady, MD, PhD; Manish K. Jha, MBBS

Developed in Cooperation with the National Institute on Drug Abuse (NIDA)

Although treatment admissions for methamphetamine use disorder (MUD) have risen, there are few effective treatments and no FDA approved medication to date. In this session, the presenters will provide research updates on treatments for MUD focusing on pharmacotherapy, brain stimulation, including transcranial stimulation (TMS), and Ketamine. Each presenter will provide a draft outline for respective planned clinical trials to be conducted in NIDA's National Drug Abuse Treatment Clinical Trials Network (CTN). The session will conclude with a chair-moderated panel discussion and audience question and answer segment.

OPENING SCIENTIFIC PLENARY SESSION

Friday, April 1, 2022 | 8:30 am - 10:00 am | Great Hall 4-6, Third Floor

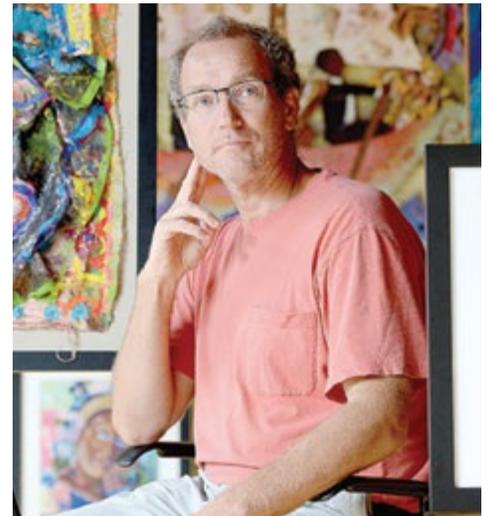

The ASAM 53rd Annual Conference begins with the Opening Scientific Plenary Session. This session, moderated by ASAM President, Dr. William F. Haning III, brings together renowned names in the addiction medicine field to motivate and energize conference attendees.

Shari M. Ling, MD
Deputy Chief Medical Officer
Centers for Medicare & Medicaid Services

Chinazo O. Cunningham, MD, MS, FASAM
Commissioner
NY State Office of Addiction Services & Supports
**R. Brinkley Smithers Distinguished
Scientist Award Recipient**

Peter Bruun, MFA
Artist, Educator, Curator
Bruun Studios

SCHEDULE

8:30 am - 8:40 am Welcome to ASAM 53rd Annual Conference & the Opening Scientific Plenary
William F. Haning III, MD, DLFAPA, DFASAM

8:40 am - 9:05 am CMS' Actions to Address the Overdose Crisis
Shari M. Ling, MD
Dr. Shari Ling, Deputy Chief Medical Officer at the Centers for Medicare & Medicaid Services, will provide an overview of CMS actions to address the overdose crisis. She will discuss existing and evolving CMS programs and policies under Medicare, Medicaid, and the Marketplace to support behavioral health. Dr. Ling will share information on coverage and payment for mental health services, treatment for beneficiaries with substance use disorders, telehealth flexibilities, and resources to help the people that you serve.

9:05 am - 9:30 am Improving Access to Care and Health Outcomes Among People Who Use Drugs: Lessons Learned by Thinking Out of the Box
Chinazo O. Cunningham, MD, MS, FASAM
As a physician who has spent 20 years treating opioid addiction in the Bronx, Dr. Chinazo Cunningham has witnessed how innovation can improve access to care and ultimately improve the health outcomes of people who use drugs. This session, featuring the R. Brinkley Smithers Distinguished Scientist Award winner, will

explore the future of the rapidly changing field of addiction medicine and lessons learned from "out of the box" approaches.

9:30 am - 9:55 am Pebbles in a Pond
Peter Bruun, MFA
The death of a loved one from an overdose can have a devastating effect on a family and community. Through his artwork and powerful personal story, Peter Bruun, a renowned artist, educator, and curator, will discuss how caring providers can make a difference. The work of addiction professionals is like tossing a pebble in a pond: a seemingly small thing, but in fact, it sends out ripple after ripple; little widening waves washing over many.

9:55 am - 10:00 am Closing Remarks & Adjourn
William F. Haning III, MD, DLFAPA, DFASAM

SESSION MODERATOR

William F. Haning III, MD, DLFAPA, DFASAM
President
American Society of Addiction Medicine

10:30 am – 11:30 am

Focus Session – 1 CME

Buprenorphine Dose Limits - What Is The Evidence?

Grand Ballroom East, Second Floor

MaryAnne C. Murray, DNP, EdD, PMHNP-BC, FNP-BC, CARN-AP; Lucinda A. Grande, MD; Tricia E. Wright, MD, MS, FACOG, DFASAM; Dave Cundiff, MD, MPH

This session provides a review of evidence for the initial recommendations of dosing limits for buprenorphine and the safety and advisability of higher doses in select patients given the current overdose crisis of synthetic opioids, such as fentanyl. Additionally, this session examines the needs of special populations, such as patients with co-existing pain, poly-substance use, pregnant patients, and diversion.

Focus Session – 1 CME

Cannabis Use in Pregnancy: Person-Centered Perspectives

Atlantic Ballroom 2&3, Second Floor

Katrina Mark, MD; Mishka Terplan, MD, MPH, FACOG, DFASAM; Davida Schiff, MD, MSc

This session will discuss cannabis use in pregnancy, lactation, and early parenting in the setting of increasing prenatal use despite professional guidance discouraging the use of cannabis in pregnancy. Specific attention will be paid to medical versus non-medical cannabis use in the preconception, post conception, and postpartum periods. The purpose of this session is to discuss cannabis use in pregnancy in an up-to-date way from a person-centered perspective and to address challenges in identifying cannabis use versus use disorder in the perinatal period.

Focus Session – 1 CME

How We Built This: Improving Treatment Access and Engagement for Hispanic/Latinx Patients

Diplomat Ballroom 3-5, Second Floor

Heather Ihrig, RN, MSN, MBA; Lesley Brooks, MD; Hans J. Pearson; Meredith N. Silverstein, PhD

Many Hispanic/Latinx patients do not receive needed Substance Use Disorder (SUD) treatment, and, in cases where there is treatment access, there are often lower treatment completion rates for Hispanic/Latinx patients as compared with non-Hispanic white patients. The Colorado Opioid Synergy Larimer and Weld (COSLAW) project, a network of SUD treatment providers and a team of integrated care coordinators, was created to increase patient access to treatment while reducing racial and ethnic health disparities. This session provides an overview of the COSLAW model, lessons learned about improving equity in engagement, strategies for engaging Hispanic/Latinx people with SUD services, and approaches for working with providers to enhance culturally relevant treatment services and approaches.

Focus Session – 1 CME

Medication in Opioid Courts: Reducing Overdose Through Triage in Court Settings

Diplomat Ballroom 1&2, Second Floor

Kimberly A. Schwarz, MS; Jo Ann Ferdinand, Esq; Charles W. Morgan, MD, FAAFP, DFASAM; Dennis A. Reilly, Esq

Opioid treatment courts offer immediate access to medication, as well as intense supervision and support to people with criminal justice involvement. This session focuses on how to promptly identify opioid use disorder, provide access to services, prescribe medications for treatment of opioid use disorder (MOUD), and engage people in specialty care treatment by sharing lessons from court practitioners and their partners, including recovery support services and peer advocates. While opioid treatment courts save lives, they have also faced barriers. Recent innovations were developed during the COVID-19 pandemic that could make it easier to connect patients to MOUD. These innovations are explored in this session, including how to engage practitioners who prescribe MOUD.

Workshop Session – 1 CME

Precipitated Withdrawal 2.0: Outpatient Tips and Tricks

Great Hall 4-6, Third Floor

JoAn Laes, MD; Timothy J. Wiegand, MD, FACMT, FAACT, DFASAM; Lewis S. Nelson, MD; Jeanmarie Perrone, MD

Despite the complexity of managing precipitated opioid withdrawal, there remains little consensus on best practices for treatment, particularly in the outpatient setting. This session offers an in-depth examination of prediction, prevention, and management of precipitated withdrawal in the outpatient settings from the acute care setting perspective. Additionally, this session explores various clinical scenarios and current evidence on management of precipitated withdrawal and addresses concerns regarding the risk of precipitated withdrawal in the outpatient setting.

Focus Session – 1 CME

Tobacco Cessation: Evidence-based Guidelines for Practitioners

Grand Ballroom West, Second Floor

Michael F. Weaver, MD, DFASAM; Lori D. Karan, MD, FACP, DFASAM

Around 20% of adults in the United States smoke or use other nicotine products such as chewing tobacco or electronic cigarettes. This session examines different tobacco products available in the US and ways practitioners can assist patients to stop the use of tobacco products. Additionally, this session provides an in-depth review of evidence supporting integration of tobacco cessation into SUD treatment with emphasis on clinical matters, such as talking with patients in SUD treatment regarding quitting, pharmacotherapy, and combination pharmacotherapy.

11:30 am – 12:45 pm

Lunch Break

Great Hall 1-3, Third Floor

11:30 am – 1:00 pm

Poster Session – 1.5 CME

Scientific Poster Session 1

Big Ideas Plenary - Operationalizing Racial Justice and Equity in Healthcare

Great Hall 4-6, Third Floor

Karthik Sivashanker, MD, MPH; Ayana Jordan, MD, PhD; Anika A. H. Alvanzo, MD, MS, FACP, DFASAM

See page 22 for more information.

2:30 pm – 3:00 pm

Networking Break

Great Hall 1-3, Third Floor

BIG IDEAS PLENARY SESSION

Friday, April 1, 2022 | 1:00 pm – 2:30 pm | Great Hall 4-6, Third Floor

Operationalizing Racial Justice and Equity in Healthcare

What big ideas are shaping the future of Addiction Medicine? Draw inspiration from ASAM award recipients and insights from national innovators during the Big Ideas Plenary Session! ASAM President, Dr. William F. Haning III, will recognize award recipients who are making major contributions to the field. Annual Conference Planning Committee Chair, Dr. Anika A.H. Alvanzo, will moderate a lively session with time for Q&A on *Operationalizing Racial Justice and Equity in Healthcare*.

Karthik Sivashanker, MD, MPH, CPPS
Vice President of Equitable Health Systems and Innovation, AMA

Ayana Jordan, MD, PhD
Associate Professor of Psychiatry
NYU Grossman School of Medicine

SESSION MODERATOR

Anika A. H. Alvanzo, MD, MS, FACP, DFASAM
Annual Conference Planning Committee Chair
American Society of Addiction Medicine

AWARDS MODERATOR

William F. Haning III, MD, DLFAPA, DFASAM
President
American Society of Addiction Medicine

SCHEDULE

- | | |
|---|--|
| <p>1:00 pm – 1:05 pm Welcome to the Big Ideas Plenary
<i>William F. Haning III, MD, DLFAPA, DFASAM</i></p> <p>1:05 pm – 1:30 pm Acknowledgement of Award Recipients
 ASAM Media Award – Dale Okorodudu, MD
 ASAM Annual Award – Timothy Wiegand, MD, FAC-MT, FAACT, DFASAM
 ASAM Educator of the Year Award – David Mee-Lee, MD, DFASAM
 John P. McGovern Award – Kelly J. Clark, MD, MBA, DLFAPA, DFASAM</p> <p>1:30 pm – 1:35 pm Introduction of Presentations
<i>Anika A. H. Alvanzo, MD, MS, FACP, DFASAM</i></p> <p>1:35 pm – 1:50 pm Operationalizing Racial Justice and Equity in Healthcare
 <i>Karthik Sivashanker, MD, MPH, CPPS</i>
 This interactive presentation will cover foundational concepts on health equity, including the various types of bias and discrimination commonly seen in healthcare. Dr. Sivashanker will also present a new framework for advancing racial justice and equity in the healthcare arena by leveraging high-performance quality and safety practices to systematically make inequities visible and to address and resolve them as an integral part of healthcare practice. Learners will be able to identify specific strategies for effectively leveraging existing quality/safety infrastructure and processes to advance equity.</p> | <p>1:50 pm - 2:05 pm Imani Breakthrough: An Innovative Recovery Program for Black and Latinx People Who Use Opioids and Other Substances
 <i>Ayana Jordan, MD, PhD</i>
 This presentation focuses on upstream causes and enduring consequences of health disparities and racial oppression in addiction. COVID-19 has sharply outlined the urgent need to dismantle these systems, mitigate behaviors, and improve health outcomes of racial and ethnic minoritized people with substance use disorders (SUDs). We will discuss culturally relevant research techniques and clinical interventions that employ an anti-racist framework to model how health equity in addiction medicine can be achieved.</p> <p>2:05 pm - 2:25 pm Panel Discussion
 <i>Karthik Sivashanker, MD, MPH, CPPS</i>
 <i>Ayana Jordan, MD, PhD</i>
 <i>Anika A. H. Alvanzo, MD, MS, FACP, DFASAM</i></p> <p>2:25 pm – 2:30 pm Closing Remarks

Workshop Session – 1 CME

Addiction Medicine in Healthcare Education - Listening to Students and Facilitating Faculty

Atlantic Ballroom 2&3, Second Floor

Stephen A. Wyatt, DO; Jenifer Van Deusen, MEd; Cara A. Poland, MD, MEd; Nivetha Saravanan

There is growing evidence that medical school education should include a stronger foundation in the skills and knowledge of the principles of addiction medicine. This opens the door for specialists in addiction medicine and psychiatry to take a greater role in student education. This session explores innovative strategies to enhance medical student understanding of substance use problems and addiction in all areas of healthcare.

Workshop Session – 1 CME

How to Implement Low-Dose Buprenorphine Initiation in Your Practice: A Case-Based Workshop

Regency Ballroom, Second Floor

Melissa B. Weimer, DO, MCR, FASAM; Shawn M. Cohen, MD; Kenneth L. Morford, MD

This session provides an in-depth review of the current evidence base for low dose initiation strategies and the various low-dose initiation strategies that are in use across the United States. This didactic presentation will review a newly-developed, shared decision tool that prescribers can use with their patients. At the end of the session, participants will be able to define current evidence for low dose buprenorphine initiation with patients.

Focus Session – 1 CME

Meeting People Where They Are: Corrections, Telehealth, and OUD

Grand Ballroom East, Second Floor

Alyson L. Smith, MD, FASAM; Jeremy A. Hubbard; Justin Schumacher, NCPRSS, PRC; Stephen A. Martin, MD, EdM, FAAFP, FASAM

Opioid use disorder does not disappear during incarceration and is not cured upon re-entry. Instead, people face profound hazards inside the walls and after release. Telehealth allows for scaled, effective, medication-based treatment during and after incarceration—especially with regulatory easing that began with the COVID-19 pandemic and is planned to be made permanent. The model presenters will discuss is designed to be readily replicated among a variety of types of correctional settings in different geographies by distinct clinical organizations. Participants in this session will review approaches to partnering and deploying the model, examine areas that may need troubleshooting, and obtain their own detailed description of workflow so as to best facilitate replication.

Focus Session – 1 CME

Naloxone: What You Need to Know

Great Hall 4-6, Third Floor

Evan S. Schwarz, MD, FASAM; Lewis S. Nelson, MD; JoAn Laes, MD; Robert C. Pueringer, MD

According to the CDC, the number of opioid overdoses has accelerated in the past year. This session examines naloxone use in emergency situations and cases where naloxone may not reverse opioid overdose. Additionally, this session explores cases where a partial agonist may be used with naloxone or as a substitute for naloxone. After this session, participants will be able to describe the use of buprenorphine after naloxone-precipitated withdrawal and whether or not the naloxone component of sublingual buprenorphine matters in these situations.

Collaborative Session – 1 CME

The Next Chapter: A Discussion on the Next Edition of The ASAM Criteria

Diplomat Ballroom 3-5, Second Floor

R. Corey Waller, MD, MS, FACEP, DFASAM; Whitney I. Menarcheck, LPC, NCC; Sandra Gomez-Luna, MD, FASAM; Kimberly Johnson, PhD

This interactive session provides an opportunity for attendees to engage with the Editor-in-Chief and Editorial Team of The ASAM Criteria 4th Edition. The mission of the Editorial Team is to map the dimensional analysis and level of care decision rules to the latest evidence and methodologically derived expert opinion. The development of the 4th Edition will take into consideration a wide range of expertise and will rely heavily on feedback from the field. This panel will focus on getting feedback and suggestions from the audience that will help the Editorial Team and the writing groups to make the next edition of The ASAM Criteria as accurate, relevant, and helpful as possible for the field of addiction treatment.

Workshop Session – 1 CME

Virtual is Now Reality: Telehealth to Deliver Care for Substance Use Disorders

Grand Ballroom West, Second Floor

Brian M. Merrill, MD, MBA; Danielle Gainer, MD; Brent Schnipke, MD

This session provides an exploration of the context and considerations for using telehealth for the treatment of substance use disorders (SUD) and regulatory changes that have impacted care during the COVID-19 pandemic. In this session, outcome data and clinical cases that highlight the complexities of treating SUD with telehealth will be reviewed. This interactive session will include audience polling, brief small-group discussions, and question-answer.

4:00 pm – 4:45 pm

ASAM Fellows (FASAM) Meet-Up

ASAM Booth, Great Hall Foyer, Third Floor

4:00 pm – 5:00 pm

Ice Cream Social

Great Hall 1-3, Third Floor

Chat with colleagues and exhibitors over a delicious ice cream treat.

5:00 pm – 6:00 pm

Workshop Session – 1 CME

An Organizational Framework for Approaching Patients with OUD and Painful Serious Illness

Great Hall 4-6, Third Floor

Janet J. Ho, MD, MPH; Katrina S. Nickels, MD; Julie Childers, MD, FASAM Palliative care specialists are trained in pain management in the context of serious illnesses. However, they often lack training in primary addiction skills and will consult addiction specialists for guidance about opioid management. Unfortunately, the literature on pain in patients with serious illness and opioid use disorder is limited. This session will provide a framework to guide medical decision-making in the treatment of patients with opioid use disorder and painful serious illness. By having tools to help organize the total risks and benefits of opioids as analgesia and/or MOUD, addiction clinicians will be better prepared to provide peer training in primary addiction medicine skills and advise colleagues on comprehensive approaches to these challenging cases.

Drug Use in Hospital Settings: Why it Happens and How We Respond

Regency Ballroom, Second Floor

Elizabeth M. Salisbury-Afshar, MD, MPH, FAAFP, FACPM, DFASAM; Hannah Snyder, MD; Zoe Weinstein, MD, MS; Paxton Bach, MD, MSc, FRCPC, FASAM

Unprescribed substance use during hospitalization is common among people with substance use disorders. During this workshop session, presenters will describe the approaches to in-hospital substance use of their respective institutions. Subsequently, workshop participants will work in small groups to discuss potential best practices on in-hospital substance use, how their own institutions respond to in-hospital substance use, and whether changes to the current approach are needed. Participants will consider steps that they can take on an individual and at a system level, and which stakeholders they should include. Small groups will be invited to share key points from their discussions with the broader audience.

Focus Session – 1 CME

History of the Stigma & Criminalization of OUD and its Treatment

Atlantic Ballroom 2&3, Second Floor

Melody J. Glenn, MD, MFA

This presentation traces the history of stigma within the field of addiction medicine and national drug policy from an anti-racist and harm-reduction lens from late 19th century to present day. A review of historical and emotional origins of stigma will provide insights into stigma's many forms, the contributing factors of stigma, and impacts stigma has on addiction medicine from individual interactions with patients to national drug policy. This review of stigma's role in addiction medicine includes the United States' first drug legislation, the 1914 Harrison Act, the Lexington Narcotic Farm, the rise and fall of methadone maintenance, the democratization of naloxone, the origins of harm reduction, and the activists role behind syringe distribution. Participants of this session will gain anti-racist and historical perspectives to inform program and policy revisions.

Workshop Session – 1 CME

Supporting Birthing People and Families During COVID; Tools for Buprenorphine and Methadone

Grand Ballroom West, Second Floor

Vania P. Rudolf, MD, MPH, DFASAM; Ngoc H. Pham, MD; Tricia E. Wright, MD, MS, FACOG, DFASAM; Hendree E. Jones, PhD

The twin crises of COVID-19 and opioid overdose mortality pose unprecedented challenges to birthing people with substance use disorders, their families, and the providers caring for them. This sessions provides a review of evidence and strategies to help providers navigate these challenging times, including public-health research updates for treating pregnant persons with OUD, strategies to initiate buprenorphine, and methadone in pregnant persons using fentanyl, and adequate dosing of methadone during pregnancy using plasma levels and flexible dosing schedules.

Collaborative Session – 1 CME

The Impact of COVID on Alcohol Use Disorder: Epidemiology and Treatment

Grand Ballroom East, Second Floor

Katherine Keyes, PhD; Sherry McKee, PhD

Developed in Cooperation with the National Institute on Alcohol Abuse and Alcoholism (NIAAA)

This session provides an in-depth review of the impact the COVID-19 pandemic has on alcohol use and alcohol use disorders, focusing on differential effects by gender. There will be an examination of the evidence that alcohol consumption has increased for women in the mid-life during the COVID pandemic, and to a lesser degree, and even decreases, among younger adults. The implications for prevention and intervention and how these short-term trends fit into longer-term trends in alcohol use will be discussed.

Focus Session – 1 CME

Treat Addiction, Save Lives: The History of the American Society of Addiction Medicine

Diplomat Ballroom 3-5, Second Floor

David E. Smith, MD, FAACT, DFASAM; Andrea G. Barthwell, MD, DFASAM;

William F. Haning III, MD, DLFAPA, DFASAM

This session discusses a new ASAM publication, Treat Addiction. Save Lives. A History of the American Society of Addiction Medicine. Presenters will share the most interesting, entertaining, or surprising bit of history they learned through this project. Excerpts from the book will be recited to spark commentary and questions.

Workshop Session – 1 CME

Widening the Net: Engaging Sexual and Gender Minority Youth in Addiction Treatment

Diplomat Ballroom 1&2, Second Floor

Paula Goldman, MD; Megana Dwarakanath, MD, MEd; Stephanie P. Klipp, RN, CARN, CAAP, CRS; J. Deanna Wilson, MD, MPH

Sexual and gender minority (SGM) youth are at increased risk of substance use and misuse compared to their heterosexual and cisgender peers. The purpose of this session is to explore best practices for providing substance use care that is affirming and sensitive to the needs of SGM youth. Additionally, this session offers a review of the interrelation between substance use and high risk sexual behavior in youth. Participants will come away from this session with greater comfort engaging SGM youth in substance use treatment, integrating substance use treatment and gender-affirming care, and implementing harm reduction strategies specific to the needs of SGM youth, including STI screening, initiation and monitoring of PrEP, and office-based counseling.

6:00 pm – 7:30 pm

Happenin' Havana Nights Party

Diplomat Landing, Across the Skybridge

Grab your fedora, put on festive party clothes, and join us by the scenic inter-coastal waterway! You'll be treated to South Florida's famous Cuban food specialties and an amazing sunset. Feel the rhythm of the Danzón music while you party and have fun with colleagues and friends. No passport needed!

Beyond the Lecture: Leading and Engaging Learners in Addiction Medicine Education

Diplomat Ballroom 1&2, Second Floor

Michael Fingerhood, MD, FACP, DFASAM; Peter Selby, MBBS, CCFP, FCFP, MHSc, DFASAM

Adults learn by listening, seeing and doing. However, for deep learning to occur, adults also need to learn by feeling and reflection. This interactive session will be a “play within a play” where participants

will observe and practice ways to make their presentations more engaging and interactive to promote deeper learning amongst their audience. Special focus on small and large group case-based learning and the use of audience engagement with the management of audience dynamics will be reviewed.

Collaborative Session – 1 CME

Bridging the Gap Between Science and Clinical Practice in Addiction Medicine

Diplomat Ballroom 3-5, Second Floor

Sebastian T. Tong, MD, MPH, FASAM; Wilson M. Compton, MD, MPE; George F. Koob, PhD; Geetha A. Subramaniam, MD, DFAPA, DFAACAP; Elisabeth Kato, MD, MRP

Developed in Cooperation with the National Institutes of Health (NIH) and the Agency for Healthcare Research and Quality (AHRQ)

This session will provide an opportunity for bidirectional communication between federal science funding agencies and clinicians/clinician-researchers about “hot” topics in addiction medicine research and how to address the divide between research and clinical practice. Funding agency representatives will solicit clinicians’ feedback on which areas of research should be prioritized to improve clinical practice. Clinicians/clinician-researchers will learn about opportunities for increasing their participation in research. Participants also will engage in brainstorming about how to include more clinical voices in the shaping of addiction research priorities.

Focus Session – 1 CME

Cannabis: Products, Health Impact, Policies and Intervention

Grand Ballroom East, Second Floor

Victoria I. Pham, DO, MBA, FAPA, DFAACAP; Brian Hurley, MD, MBA, DFASAM

This session is designed to prepare clinicians to provide addiction medical management in patients who use cannabis. Patients who come to the attention of addiction physicians are increasingly likely to use cannabis. Increases in THC exposure elevates the risk of cannabis use disorder and the development of mental health conditions including cognitive problems. A firm understanding of the association between cannabis use, addiction to cannabis and/or other substances, and psychiatric symptoms and conditions is critical to the modern practice of addiction medicine. By the conclusion of the workshop, participants will have a stronger understanding of the importance of addressing cannabis use, addiction and treatment in patients who present for the treatment of addictive diseases.

Focus Session – 1 CME

Clinical Characterization of Kratom: Is it a Craze or Here to Stay?

Regency Ballroom, Second Floor

Stephanie T. Weiss, MD, PhD; Kirsten E. Smith, PhD, MSW

This session will provide a comprehensive, bench-to-bedside understanding of the psychoactive plant, kratom (*Mitragyna speciosa*), which is increasingly used in the United States to self-treat pain, psychiatric, and substance use disorder (SUD) symptoms. In this session, assessment, diagnosis, and intervention as they relate to SUD for kratom and kratom polydrug use will be discussed. Though limited, the most up-to-date animal and human research on kratom will be presented. Best practices for clinicians who are likely to encounter kratom-using patients will be provided along with suggestions for future research.

POLICY & SCIENCE PLENARY SESSION

Saturday, April 2, 2022 | 8:30 am – 10:00 am | Great Hall 4-6, Third Floor

Expanding Access to Care through Telehealth: Lessons Learned During the Pandemic

While there has long been interest in expanding access to addiction treatment through telehealth, there have historically been both regulatory and financial barriers that limited adoption. Through the COVID-19 public health emergency, federal and state regulations governing telehealth have been relaxed and payment mechanisms have expanded, leading to broad adoption with diverse models of implementation. This plenary session, moderated by ASAM President-Elect, Dr. Brian Hurley, will discuss the state of the research on telehealth for addiction treatment, innovative telehealth models, lessons learned during the pandemic, and implications for policies and practices going forward.

Focus Session – 1 CME

Continuum of Micro-dosing : Applying a Novel Technique Across a Healthcare System

Grand Ballroom West, Second Floor

Michelle Gaffaney, PA-C; Dale J. Terasaki, MD, MPH; Kenneth Novoa, MD; Dayan D. Colon Sanchez, MD

Recently, a new strategy using micro-doses of buprenorphine was introduced that obviates the need for patients to taper off full-agonist opioids and experience opioid withdrawal prior to a buprenorphine induction. Denver Health Medical Center has developed a continuum of addiction care across the institution providing the opportunity for patients to transition to buprenorphine with the micro-dose technique in the inpatient, outpatient, and correctional settings. This “no-wrong-door” model allows patients to seek medications for opioid use disorder across our institution including on our inpatient units, outpatient clinics, and correctional facilities. This session reviews patient cases to illustrate the continuum and share pearls for providers on how to implement micro-dose buprenorphine inductions in multiple clinical settings.

Focus Session – 1 CME

Focus on Phenobarbital: Applications for Alcohol and Sedative-Hypnotic Withdrawal

Great Hall 4-6, Third Floor

Alaina R. Steck, MD, FASAM; JoAn Laes, MD; Timothy J. Wiegand, MD, FACMT, FAACT, DFASAM; Jeremiah D. Fairbanks, DO

Healthcare utilization for alcohol, sedative-hypnotic use, and withdrawal has increased significantly during the COVID-19 pandemic while simultaneously healthcare resources have become strained and increasingly limited. During this time, phenobarbital has gained increased attention as a favorable treatment option for both alcohol and sedative-hypnotic withdrawal. This session will utilize case-based discussion by an expert panel to address emerging questions about phenobarbital use in the inpatient, emergency department, and outpatient settings. There will be a review of the pathophysiology of alcohol and sedative-hypnotic withdrawal and the rationale for phenobarbital's use in these situations, and some of the currently-used strategies, safety concerns, and evidence for efficacy.

Focus Session – 1 CME

Population Health Approach to Opioid Use Disorder: Can It Change The Game?

Atlantic Ballroom 2&3, Second Floor

Jill S. Warrington, MD, PhD; Robert London, MD; Jacquie Sheehey

The management of Opioid Use Disorder (OUD) has evolved over the past decade, allowing for the development of a more robust infrastructure, a broader team of trained health professionals, and the evolution of evidence-base clinical guidelines. Despite these advancements, OUD remains at a high prevalence, with routine reliance on acute care services and devastating patient outcomes. Core population health management principles, including risk stratification, care coordination, patient engagement strategies, and outcomes-based care management, can be utilized to create innovative strategies for the delivery of care for patients with OUD. This session will review Population Health Management tools as they can be applied to the management of OUD.

12:30 pm – 1:15 pm

Nurses, Nurse Practitioners, & Physician Assistants Meet-Up

ASAM Booth, Great Hall Foyer, Third Floor

12:30 pm – 1:30 pm

Lunch Bunch

Great Hall Foyer, Third Floor

Grab a bite and grab a seat! Meet people with your same interests, practice setting, profession, and career stage. Talk about topics that matter to you.

1:30 pm – 2:30 pm

Collaborative Session – 1 CME

Changes To Treatment Regulations During And After The COVID-19 Public Health Emergency

Great Hall 4-6, Third Floor

Yngvild K. Olsen, MD, MPH, DFASAM; Robert Baillieu, MD, MPH, FAAFP
Developed in Cooperation with Substance Abuse and Mental Health Services Administration (SAMHSA)

The COVID-19 Public Health Emergency necessitated policies that protected patients and providers while also maintaining access to services. Early in the pandemic, SAMHSA promulgated treatment flexibilities that waived regulatory restrictions on unsupervised methadone take-home medication, and, in conjunction with the DEA, established permissions for the initiation of buprenorphine without an in-person examination. As rates of overdose climbed, SAMHSA implemented policies that advanced harm reduction and expanded access to treatment. This session will engage participants in discussion about how treatment flexibilities were implemented during the difficult, early months of the pandemic, as well as policy initiatives and associated issues that may have benefitted providers and patients.

Workshop Session – 1 CME

Low-Dose Buprenorphine Inductions: Options and Innovations

Grand Ballroom East, Second Floor

Eowyn Rieke, MD, MPH; David Lawrence, MD, FASAM; Jennifer Hartley, PhD, MD, MSOM

The presence of fentanyl and fentanyl analogues (F/FA) in the US drug supply has contributed to dramatic increases in overdose deaths, as well as new challenges in Medications for Opioid Use Disorder (MOUD) care. This interactive workshop will include a review of the challenges of initiating buprenorphine for people who have been using fentanyl intentionally or unintentionally. This session will include an overview of innovative induction protocols used across the United States. Additionally, this session will examine two different protocols developed in an inpatient withdrawal management program, outcomes of these protocols in the inpatient and ambulatory settings with measures of treatment completion, successful ambulatory inductions, and patient experience. Challenges of buprenorphine maintenance in patients who have used fentanyl, including consideration of higher doses and other modifications of standard MOUD care will be discussed. After this workshop, participants will have a thorough understanding of the pharmacodynamics of fentanyl and buprenorphine and options to improve success of MOUD care for patients using fentanyl.

Focus Session – 1 CME

Mentoring Women Graduate Students Seeking a Career in Substance Use Disorder Research

Diplomat Ballroom 3-5, Second Floor

Barbara Andraka-Christou, JD, PhD; Danielle Atkins, PhD, MPA; Yara M. Asi, PhD

To increase participation of women, especial women of color, in full time SUD research careers, an extracurricular mentoring program (MP) was developed and implemented at a large state university for five women PhD students during Spring 2021. This MP included internal group meetings, guest speaker panels, readings, and written assignments. Additionally, mixed methods were implemented to evaluate the MP's impact on participant desire to seek a full time SUD research career, self-confidence in research, understanding of the research process, and awareness of the job application process. During this session, this MP's development, structure, evaluation, and lessons learned will be reviewed. This session is recommended for anyone considering development or improvement of a mentoring program, inside or outside of a university context.

1:30 pm – 2:30 pm

Workshop Session – 1 CME

Opioid Use Disorder in the Perinatal Population: Reviewing Evidence-Based Care Models and Best Practices

Grand Ballroom West, Second Floor

Valerie S. Ganetsky, PharmD, MSc; Kaitlan Baston, MD, MSc, DFASAM; Iris Jones, LPC, LCADC, CCS, NCC; Lindsay Wilson, LPN

Pregnant persons with opioid use disorder (OUD) are at risk for worse obstetric, maternal, and neonatal outcomes. Yet, nearly half of all pregnant persons with OUD do not receive medications and less than one-third are retained in care at 6 months. This session will use a combination of educational techniques to prepare and empower addiction, obstetric, or primary care providers to incorporate current evidence-based practices into their treatment of pregnant and parenting persons with substance use disorder. This session includes an overview of available evidence on best practice models for perinatal treatment of OUD, an interdisciplinary panel discussion, and a SWOT analysis (strengths, weaknesses, opportunities, and threats) of participant home systems to help them incorporate lessons learned.

Focus Session – 1 CME

The Good, Bad and Ugly: Drug Testing in Liver Transplant Evaluations

Diplomat Ballroom 1&2, Second Floor

Soumya L. Pandalai, MD, FACP, DFASAM; JoAn Laes, MD; Robert C. Pueringer, MD; Stephanie T. Weiss, MD, PhD

The role of urine drug testing in patients undergoing liver transplant evaluation for alcohol-related liver disease is controversial. Most transplant centers require a period of abstinence despite limited data to support this practice. Consequently, biomarkers to detect alcohol and marijuana are often utilized without an adequate understanding of how abnormal levels impact clinical decisions like organ eligibility and listing. False accusations regarding recent use can lead to delayed medical care, relapse, disruption of the therapeutic rapport, and further highlight inequalities in healthcare. This session provides a review of the case studies that investigate current drug testing standards and identify clinical scenarios that result in unreliable results. Additionally, this session includes a discussion about verifying abstinence without drug testing and the potential uses of a novel test to detect THC metabolites.

Workshop Session – 1 CME

The Inner Work of Caring for Individuals with Severe Substance Use Disorders

Regency Ballroom, Second Floor

Janet J. Ho, MD, MPH; Katrina S. Nickels, MD; Julie Childers, MD, FASAM

Caring for patients who have substance use disorder (SUD) can be both extraordinarily rewarding and challenging, especially when patients have severe SUD complicated by adverse health events, repeat hospitalizations, and conditions refractory to multiple attempts at treatment. Addiction clinicians, who often have long-term relationships with patients advocating for care, can find it even more distressing when a patient's SUD continues to worsen, despite best efforts at motivating and offering treatment. If left unexamined and unaddressed, clinician grief can potentially lead to maladaptive coping, compassion fatigue, and burnout. This session reviews tools to care for individuals with severe SUD by physicians with palliative and addiction medicine expertise and examines situations where patients may not recover. Additionally, this session provides a review of how being mindful of small changes, such as the utilization of team debriefing and processing, can address clinician burnout and encourage practitioners to remain present and maintain hope even amidst the most challenging cases.

Focus Session – 1 CME

WTF - Methadone: What is the Future?

Atlantic Ballroom 2&3, Second Floor

Ruth A. Potee, MD, FASAM

Federal regulations for Opioid Treatment Programs (OTP) have been largely unchanged since 1973. This presentation reviews the history of methadone treatment for Opioid Use Disorder (OUD) with a specific analysis of the racial bias and health inequities perpetrated by 42CFR Section 8. Access to treatment with methadone is one strategy to reduce morbidity and mortality of OUD; yet current regulations create multiple barriers within OTPs. This presentation examines how the emergency order issued in 2020 to increase take-home bottles due to COVID-19 shifted methadone treatment delivery in the United States, the role of profit, and how to envision a more patient-centered and evidence-based approach to methadone delivery. The clinical evidence behind mandated group visits, required counseling, daily medication administration, and drug free toxicology is also discussed.

Workshop Session – 1 CME

5 Tips for Teaching Trainees about SUD in Integrated Clinic Settings

Diplomat Ballroom 1&2, Second Floor

Caroline R. Shadowen, MD; Caitlin E. Martin, MD, MPH, FACOG; Ashley Wilson, MD

Integrating SUD management into a wide array of clinical specialties is a necessary component to combat the overdose crisis. However, true integrated care requires providers proficient in both SUD and their respective medical specialty. Therefore, it is imperative to equip medical providers early in training with knowledge of SUD and its treatments, as well as provide them an opportunity to practice clinical skills of identifying patients with SUD, interviewing patients, and initiating evidence-based treatments. The integrated OB/GYN and SUD clinic incorporates trainees across specialties and levels into its multidisciplinary team, including Addiction Medicine fellows, OB/GYN residents, medical students, clinical psychology students, and social work interns. This highly interactive workshop reviews lessons learned and data outcomes from experts with clinical experience and demonstrates best practices in addiction teaching for developing curricula for trainees.

Focus Session – 1 CME

Alcohol Withdrawal Management: Beyond Benzos

Regency Ballroom, Second Floor

Martha J. Wunsch, MD; Michael F. Weaver, MD, DFASAM

Benzodiazepines are the mainstay of treatment for alcohol and other sedative-hypnotic withdrawal syndromes. In some instances, benzodiazepines may not be appropriate for treatment of withdrawal. Alternative pharmacologic options are available, including phenobarbital, gabapentin, alpha-adrenergic agonists, and others. This presentation draws from existing medical literature and includes expert, clinical experience with complicated patients. This session incorporates an evidence-based review of clinical issues, such as assessment of withdrawal, choosing appropriate medication regimen, monitoring severity, triaging to appropriate level of care, and addressing related medical and psychiatric complications.

Annual Review of Addiction Medicine: Highest Impact Publications from 2021-2022

Great Hall 4-6, Third Floor

Sarah E. Wakeman, MD; Joshua D. Lee, MD, MSc; Jennifer McNeely, MD, MPH
This is an annual review of the highest impact, peer-reviewed articles across the field of Addiction Medicine for 2021-2022. The review is composed of brief journal club presentations of each article, organized under the ASAM Principles of Addiction Medicine textbook chapter headings: neurobiology, epidemiology, pharmacology, intoxication and withdrawal syndromes, screening and diagnosis, mutual help, harm reduction, criminal justice, dual diagnoses, and pharmacologic and behavioral interventions. The goal of this session is to provide the learner with a concise, structured, critical summary of the important recently published scientific papers. All of the core Principles chapters are covered, using the highest rated articles within these topics.

Focus Session – 1 CME

How iOAT Care Could Be Improved?: Providers Perspectives on Clients' Needs

Diplomat Ballroom 3-5, Second Floor

Eugenia Oviedo-Joekes, PhD; Donald Scott MacDonald, MD
Rapid expansion of effective treatments for opioid use disorder (OUD) is more important now than ever. Understanding client preferences for iOAT can inform program design(s) that optimize uptake and expansion, promoting person-centered care in addiction. Including the providers' perspectives in these processes could enhance understanding of how iOAT care could be improved to better meet clients' needs. This session offers an examination into iOAT and providers' perspectives such as system-level considerations to advance the provision of low barrier, access to diverse iOAT medications, non-punitive approaches, training, and easing regulatory constraints.

Focus Session – 1 CME

Leveraging Community Harm Reduction Services to Provide Mobile Primary Care/SUD Treatment

Atlantic Ballroom 2&3, Second Floor

Jennie Jarrett, PharmD, BCPS, MedEd; Eden G. Keller, PharmD; Sarah Messmer, MD
This session provides a review of an innovative, interprofessional practice model integrating mobile primary care services and a low threshold opioid treatment into a longstanding mobile harm reduction and syringe exchange program in urban underserved communities. Additionally, this session examines the unique challenges to mobile primary and substance use disorder care, including partnerships with opioid treatment programs, interacting with the DEA, and collaborating with harm reduction programs to support patients' treatment goals. Participants will gain a better understanding of emerging mobile treatment models, integrating interprofessional education and patient care, and engaging in harm reduction within underserved populations.

Focus Session – 1 CME

Methamphetamine Use Disorder in Pregnancy

Grand Ballroom East, Second Floor

Charles W. Schauburger, MD, MS, FACOG, FASAM; Marcela Smid, MD, MA, FACOG, FASAM

As methamphetamine use in the United States has increased, 1% of all deliveries are complicated by methamphetamine use representing over 37,000 maternal-infant dyads. The processes of prenatal and addiction care for individuals with methamphetamine use are made complex by

insecure housing, frequent involvement with the criminal justice system and other barriers. This session will provide a summary of the literature related to methamphetamine use in pregnancy and in the postpartum period. Additionally, recommendations for prenatal and addiction care for pregnant and postpartum individuals will be examined and the models of integrated care that may prove useful for future investigation will be discussed.

Workshop Session – 1 CME

Palliative Care for Patients with Substance Use Disorders: Challenges and Opportunities

Grand Ballroom West, Second Floor

Yara Moustafa, MD, PhD; Farooq Mohyuddin, MD

People with substance use disorders are more likely to develop chronic and life-threatening conditions and die earlier than the general population. Some of the contributing factors include barriers to healthcare access, negative healthcare experiences, poor social support due to stigma, and other drug-related morbidities and mortalities. This session provides an examination of use case studies and literature review to familiarize participants with the unique challenges faced by this population, especially those with co-morbid conditions. Participants will learn about patient barriers to palliative and hospice services access, as well. In small group discussion format, participants will identify key factors that undermine early access to services, particularly the role of physicians' countertransference.

Development of The ASAM Criteria Intake Assessment: A Free, Paper-Based, Interview Form

Atlantic Ballroom 2&3, Second Floor

Anne B. Lee, LCSW; Thomas E. Freese, PhD; R. Corey Waller, MD, MS, FACEP, DFASAM

The ASAM Criteria Intake Assessment is intended as a guide to multidimensional assessment of individuals with Substance Use Disorders (SUDs) and as a guide to the conceptual approach of the ASAM Criteria decision logic. It is designed to assist Level of Care (LOC) decision-making for adults who are seeking treatment. The ASAM Criteria Intake Assessment Form for Adults has two primary components. The first component is a set of questions that guides the interviewer to establish risk ratings for the six domains of The ASAM Criteria. The second component of the form includes a summary sheet and Level of Care Guide where the interviewer summarizes information from the interview questions and uses the risk ratings from the six dimensions and guidance embedded in the assessment form to select the appropriate LOC. This session will describe the development of the tool and the results of a small feasibility study. Additionally, this session will provide an overview of the assessment, discuss scoring guidance, and explore information and resources for anyone who would like to implement the tool locally.

4:30 pm – 5:30 pm

Focus Session – 1 CME

Extended-Release Buprenorphine: Pearls, Protocols and Possibilities from 3000 Injections

Diplomat Ballroom 3-5, Second Floor
 Lee Radosh, MD, FAAFP, FASAM; Sahithi Gosala, MD, FASAM; William Santoro, MD

Utilizing extended-release buprenorphine can have advantages over sublingual, such as improved adherence and less diversion. Some providers may be hesitant to use extended-release buprenorphine due to lack of training or comfort with the process. This session provides a review of the unique pharmacologic properties of extended-release buprenorphine, logistical issues obtaining the medication, administration tips, common patient concerns such as getting “too much” or “too little” medication, injection site complications, utilizing blood levels, and limited sublingual buprenorphine supplementation. Additionally, discussion will include novel dosing protocols, use in specific populations, weaning, and social/logistical challenges that may arise with using extended-release buprenorphine.

Focus Session – 1 CME

Frontiers in ED Addiction Care

Regency Ballroom, Second Floor
 Hannah Snyder, MD; Arianna D. Campbell, PA-C; Aimee Moulin, MD, MAS; Elizabeth Jane Johnson, MD

This highly interactive session is focused on how emergency departments can innovate in addiction care. Presenters will take a practical approach to implementation of ED buprenorphine in the fentanyl era, treatment of alcohol and stimulant use disorder, and harm reduction in ED settings. The session will feature clinicians from across California, and share preliminary findings from the California Bridge Centers of Excellence quality improvement group. Participants will access practical toolkits and handouts that will allow them to implement at their own facilities.

Focus Session – 1 CME

Gaming Disorder 101: How to Distinguish Passion from Problem

Grand Ballroom East, Second Floor
 Emily Brunner, MD; Cam Adair

Gaming disorder is a condition recognized by the World Health Organization (WHO) and is included in the ICD-11. While gaming disorder is increasingly discussed in popular media, it is often done so without a strong scientific underpinning. This session provides a review of current evidence behind best practices for gaming disorder identification, treatment, prevalence, and risk factors associated with gaming disorder development.

Workshop Session – 1 CME

Provider Bias In The Treatment Of Opioid Use Disorder

Grand Ballroom West, Second Floor
 Dana Lehman, PsyD; Christian S. Credle, PsyD

Since the start of the opioid epidemic, significant financial and medical resources have been used to combat the crisis. Despite this, the data shows that the rates of abuse, overdose, and death continue to skyrocket, particularly within communities of color. Reasons for this include poverty, provider bias, fear of legal consequences, stigma, and lack of access to culturally competent healthcare. It is imperative that medical and mental health providers working to fight this epidemic examine the role internalized bias plays in fostering minority opioid users receiving substandard treatment. This presentation provides participants with a supportive space to discuss ideas and concerns regarding these issues.

Focus Session – 1 CME

The Role of Opioid Metabolic Pathways in Interpreting Urine Drug Testing Results

Great Hall 4-6, Third Floor
 Stephanie T. Weiss, MD, PhD; JoAn Laes, MD; Lewis S. Nelson, MD; Soumya L. Pandalai, MD, FACP, DFASAM

This session provides an in-depth review of the principles of urine drug testing, both types of drug screening methods, opioid metabolic pathways, and potential pitfalls and interpretation errors that can occur with urine drug testing. Participants will learn about the possibility of misinterpretation of both urine drug screens and confirmatory liquid chromatography-mass spectrometry testing due to insufficient knowledge of the testing method and compound pharmacology involved. Participants in this session will hone their urine drug testing interpretation skills and clarify when further interpretation assistance is required.

8:00 pm – 9:00 pm

★ General Session – 1 CME

Black Men in White Coats: From Awareness to Action

Regency Ballroom, Second Floor
 Dale Okorodudu, MD; Louis E. Baxter, Sr, MD, DFASAM; Stephen M. Taylor, MD, MPH, DFAPA, DFASAM

In 2013, the Association of American Medical Colleges released an alarming report informing the nation that the already low number of Black men applicants to medical school was decreasing. In 2021, this trend started to change as the global pandemic has contributed to a growing recognition of the effects of health disparities and the significant shortage of health care professionals. While the latest data is encouraging, there is still much more work to be done to increase the representation of Black men in the medical profession. Panelists in this session will show clips from the documentary, Black Men in White Coats, and have a frank discussion about the disparities, stereotypes, and stigma associated with Black men and the health care profession. Panelists will also explain how medical schools and others in the field can get involved in addressing this crisis.

9:00 pm – 10:00 pm

Changing the Focus: Envisioning Alcohol Use Through a Harm Reduction Lens

Diplomat Ballroom 3-5, Second Floor
Rachel B. King, MD; Alyssa Peterkin, MD

Alcohol-related death is the third most preventable cause of death in the United States. Historically, the medical field has viewed abstinence as the primary goal when addressing alcohol-related problems. However, approaches that focus on abstinence are at risk of excluding persons who may benefit from education on strategies to mitigate risks associated with alcohol use. This session will review practical strategies that reduce harm related to alcohol use. Participants will gain practical skills through small group, case-based discussions that demonstrate feasibility of implementing harm-reduction strategies to improve the health of persons using alcohol.

Workshop Session – 1 CME

Do AA and NA work? If So, How Do They work?

Atlantic Ballroom 2&3, Second Floor
Paul H. Earley, MD; Mel Pohl, MD, DFASAM

Addiction medicine has made great strides in adopting a strong evidence base in the past thirty years. Along the way, however, many addiction professionals have fallen under the incorrect notion that AA and other 12-Step programs provide a gathering of individuals in recovery but have no proven mechanisms of efficacy in sustaining disease remission. After a very brief didactic presentation, a mock AA meeting will be staged with real-time audience participation. Using start/stop timing, methods of efficacy from the scientific literature will be highlighted as they occur. Subsequent discussion will deepen audience appreciation as to how AA strengthens relapse prevention skills, engenders behavioral and cognitive change, and induces healthy changes in personality.

Focus Session – 1 CME

Facts About Fentanyl

Regency Ballroom, Second Floor
JoAn Laes, MD; Alaina R. Steck, MD, FASAM; Robert C. Pueringer, MD; Lewis S. Nelson, MD

The COVID-19 pandemic spurred the largest increase in U.S. drug overdose deaths in history with a 30% increase between 2019 and 2020. Much of this increase in overdose deaths continues to be driven by fentanyl and fentanyl analogs. This session provides a review of trends, clinical management, epidemiology of the opioid epidemic, including recent changes in exposure to fentanyl, fentanyl analogs, and other substances in pressed, illicitly-manufactured pills. Additionally, this session examines harm reduction strategies, such as fentanyl test strips, updated approaches to drug testing, and considerations regarding naloxone reversal and buprenorphine induction for patients who predominately use fentanyl.

Focus Session – 1 CME

HIV Screening, Diagnosis, and Rapid Antiretroviral Therapy Start

Atlantic Ballroom 1, Second Floor
Kento Sonoda, MD, AAHIVS; Amy J. Kennedy, MD, MS, AAHIVS

In the United States, there are estimated 34,800 new HIV infections every year. Addiction medicine specialists play a central role in taking care of people who are at higher risk for HIV infections. This session provides a review of screening strategies to help providers appropriately conduct screening tests and interpret testing results in the practical setting. Initiating antiretroviral therapy (ART) in a timely manner improves patient

outcomes. This session will also provide helpful resources to guide participants on how to initiate ART when diagnosing patients with HIV. At the completion of this session, participants will be able to apply HIV screening tests into clinical practice, interpret HIV diagnostic test results, and identify resources for starting ART after the diagnosis.

Workshop Session – 1 CME

March of Dimes COMPASSION Supportive Group Model for Birthing People with SUD

Diplomat Ballroom 1&2, Second Floor
Vania P. Rudolf, MD, MPH, DFASAM; Amy M. Johnson-Rubio, MPA; Lisa Bullard Voltarelli, MD; Hendree E. Jones, PhD

As a leading organization in maternal and child health, March of Dimes is working to support healthy people and healthy pregnancies to reduce the preterm birth rate. This workshop will highlight the new COMPASSION Supportive Group Model for Pregnant and Post-pregnant people and discuss opportunities for providers to be champions for the health of parents with SUD and their babies. The COMPASSION care model is a flexible group prenatal care program that aligns with established prenatal care guidelines. We will review the evidence for the group care model, including improved obstetric and neonatal outcomes. We will review the SUD curriculum and how the information provided supports providers in implementing a successful COMPASSION Supportive Pregnancy Care program in their practice.

9:00 am – 9:30 am

Cannabis Conversations

Atlantic Ballroom 2&3, Second Floor
Michael F. Weaver, MD, DFASAM; John A. Hopper, MD, DFASAM
 Cannabis is becoming more popular and a majority of states in the U.S. have passed legislation allowing for medical use of cannabis or decriminalization of recreational use. This session provides a review of the different cannabis products available in the U.S. and the risks and benefits that pertain to cannabis use. The presenters will compare and contrast regulations in the states with and without medical cannabis or decriminalization of cannabis. This session is evidence-based, draws from existing medical literature, and reviews panelist clinical expertise with patients experiencing use and complications of cannabis. The emphasis will be on clinical issues, especially talking with patients about risks and benefits.

Focus Session – 1 CME

Improving Patient Outcomes Through Fully Integrated Peer Recovery Support Services

Atlantic Ballroom 1, Second Floor
Alan Gordon, MD; Michael M. Litterer, CHES, CPS, FHELA; Elliott Liebling, MPH; Marc A. Milano, MD, FACEP

This session will provide a review of the history of a Fully Integrated Peer Recovery Support Services program and an examination into the current state of the program's infrastructure, implementation, operation, and metrics. Additionally, the future direction of the program will be discussed and lessons learned, challenges, and triumphs will be highlighted. This session will also provide guidance for any professionals seeking to implement similar programs in their facility or institution.

9:30 am – 10:30 am

Workshop Session – 1 CME

Loneliness, Loss and Love: How to Keep Going in 2022

Diplomat Ballroom 3-5, Second Floor

Emily Brunner, MD; Stephen M. Delisi, MD; Princess Drake, MS, PsyD

This session will provide a review of the increase in patient and clinician grief and loneliness and how these impact health and recovery, especially amidst the coronavirus pandemic. Strategies to mitigate loneliness at both an individual and community level will be reviewed and a practical tactic on how to provide a safe space to process loneliness and grief/loss will be examined. Additionally, there will be an exploration of the shared neurobiology and neuroscience of loneliness, grief/loss, and substance use disorders (SUD) to better understand patients who present with grief/loss and SUD.

Focus Session – 1 CME

Moving Beyond Naloxone: Integrating Harm Reduction Into Office-Based Addiction Treatment

Regency Ballroom, Second Floor

J. Deanna Wilson, MD, MPH; Stephanie P. Klipp, RN, CARN, CAAP, CRS; Divya Venkat, MD; Elizabeth Cuevas, MD

As the opioid epidemic continues to rage on with unprecedented overdose death rates in the United States, there is a need to have broader engagement strategies that reduce risk and mortality from substance use. This session will review patient-centered strategies and best practices to integrate harm reduction practices, education, and counseling into office-based addiction treatment. Participants will explore opportunities on how to counsel patients on overdose risk reduction, discuss provider scripts for safer injection techniques, and review clinical guidelines for HIV and HCV prevention as well as HCV treatment. This session also includes a review of strategies related to prescribing buprenorphine using a harm-reduction lens and how this influences logistics, such as urine drug screens, counseling requirements, and clinical documentation.

Workshop Session – 1 CME

Stories of Our Ancestors: The impact of Culture, Race, Trauma on Addiction

Diplomat Ballroom 1&2, Second Floor

Carolyn C. Ross, MD, MPH, CEDS

Research on the impact trauma has on families and offspring goes back decades and includes trauma caused by war, genocide, class struggles, and racism. Helping professionals, such as psychologists, therapists, and other care experts tend to lack understanding that these kinds of traumas can have on patients with Substance Use Disorders. This session examines the treatment of trauma based on cultural identity or race and includes strategies clinicians can use with patients with historical, international, or racial trauma to help patients build resilience in their recovery process.

10:30 am – 11:00 am

Refreshment Break

Grand Ballroom Foyer, Second Floor

11:00 am – 12:00 pm

Focus Session – 1 CME

A Telemedicine Bridge Clinic Successfully Engages Patients in Buprenorphine Treatment

Atlantic Ballroom 2&3, Second Floor

Michael J. Lynch, MD

This session will examine the development and implementation of a novel telemedicine bridge program in Pennsylvania that provides rapid direct access to low-barrier addiction medical treatment for patients throughout the state while long-term care is identified. Patient demographics, referral

patterns, and preliminary outcomes for the first 550 patients evaluated from April 2020 through December 2021 will be described and logistics, programmatic guidelines, and lessons learned will be reviewed. Future strategies to incorporate telehealth in addiction care will be considered as well as opportunities for legislative advocacy.

Focus Session – 1 CME

Considerations in Referring to Mutual Aid Groups: Legal, Ethical, Clinical & Pragmatic

Diplomat Ballroom 1&2, Second Floor

Joseph Gerstein, MD, FACP

Free mutual aid groups are now available with a variety of ideologies, styles, world views, locus of control preferences, levels of acceptance of MAT/OAT, levels of supporting evidence of efficacy, and goals. In the era of the online availability of free mutual aid group programs, legal, clinical, ethical, and practical considerations should be taken into account so that referrals match patients with programs appropriately. More attention given to this paradigm will result in an increase in more beneficial referrals.

Workshop Session – 1 CME

Strengthening Substance Use Prevention Messaging for Youth in the Wake of COVID-19

Diplomat Ballroom 3-5, Second Floor

Stephanie Swanson, MPH; Pam Pietruszewski, MA

The COVID-19 pandemic has caused incredible disruption in the lives of young people during a time when they are already vulnerable in their growth, development, and identity. To address the rising concern of substance use during the pandemic, the National Council created a comprehensive message guide and toolkit based upon findings from national assessments of youth and youth-serving providers, key informant discussions, and message testing. The focus of this workshop is the implementation of substance use prevention messaging with middle and high school youth. The continuum of substance use requires a comprehensive approach and early intervention is needed to alleviate work for treatment providers. Participants will have access to a complementary toolkit including clinical and operational resources to support youth-serving providers.

Workshop Session – 1 CME

Toxicology Topics: Drug Levels for Buprenorphine: Efficacy, Diversion, and Compliance

Regency Ballroom, Second Floor

Timothy J. Wiegand, MD, FACMT, FAACT, DFASAM; JoAn Laes, MD; Hiroko Furo, MD, PhD, MA, MS; Soumya L. Pandalai, MD, FACP, DFASAM

This session will address toxicology topics through a combined, interactive, case-based and didactic session led by a panel of medical toxicology and addiction medicine expert faculty. Different buprenorphine and naloxone tests, the interpretation of results, impact on patient management, and available literature in this area will be reviewed and discussed.

Official Close of the ASAM 53rd Annual Conference! See you next year from April 13 - 16, 2023!

ASAM Annual Awards

Congratulations to ASAM's award recipients! Be inspired by these outstanding leaders in addiction medicine as they receive recognition at the sessions as indicated below.

PRESIDENT'S RUTH FOX RECEPTION FOR AWARDEES AND DONORS *(By Invitation Only)*

Thursday, March 31 | 6:30 pm - 8:00 pm

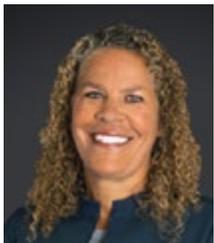

ASAM Training Directors Award

Louis E. Baxter, Sr, MD, DFASAM

The ASAM Annual Training Directors Award recognizes and honors an individual who has demonstrated outstanding training in the evaluation, treatment, research and teaching of substance use disorders.

OPENING SCIENTIFIC PLENARY

Friday, April 1 | 8:30 am - 10:00 am

R. Brinkley Smithers Distinguished Scientist Award

Chinazo O. Cunningham, MD, MS, FASAM

Recognizes and honors an individual who has made highly meritorious contributions to advancing the scientific understanding of alcoholism, its prevention, and treatment.

BIG IDEAS PLENARY SESSION

Friday, April 1 | 1:00 pm - 2:30 pm

John P. McGovern Award

Kelly J. Clark, MD, MBA, DFAPA, DFASAM

Recognize and honor an individual who has made highly meritorious contributions to public policy, treatment, research, or prevention which has increased our understanding of the relationship of addiction and society.

ASAM Annual Award

Timothy Wiegand, MD, FACMT, FAACT, DFASAM

Recognize outstanding contributions to the growth and vitality of our Society, for thoughtful leadership in the field, and for deep understanding of the art and science of addiction medicine, and for expanding the frontiers of the field of addiction medicine and broadening our understanding of the addictive process, through research and innovation.

ASAM Educator of the Year Award

David Mee-Lee, MD, DFASAM

Recognizes and honors an individual who has made outstanding contributions to ASAM's addiction medicine education.

ASAM Media Award

Dale Okorodudu, MD

Recognizes and honors an individual who has broken down barriers produced by prejudice, exclusion or injustice in healthcare.

THE STATE OF THE ORGANIZATION

Saturday, April 2 | 7:45 am - 8:15 am

ASAM Presidential Award

Richard A. Rawson, PhD

Recognizes and honors an individual for outstanding dedication and service in addressing addiction issues or promoting education, training or awareness of the specialty of addiction medicine.

ASAM Leadership Award

Paul H. Earley, MD, DFASAM

The Former Presidents/Leadership Award honors individuals who have served as national president of the American Society of Addiction Medicine. It is bestowed upon the completion of their term as the Past President, by which time the recipient has served nearly a decade on the presidential track of the ASAM Board.

POLICY & SCIENCE PLENARY SESSION

Saturday, April 2 | 8:30 am - 10:00 am

The ASAM Public Policy Award recognizes elected officials (federal, state, local) who have effectively advanced public policies that promote the health of Americans, especially persons with addictions; addiction medicine physicians; the education of physicians and medical trainees regarding substance use and addiction; or recognition of the practice of addiction medicine.

ASAM Public Policy Award

US Senator Tammy Baldwin (D-WI)

ASAM Public Policy Award

US Senator Mike Braun (R-IN)

ASAM ABSTRACT AWARD RECIPIENTS

Best Overall Abstract Submission

Kristin Prewitt, MD, MPH

To recognize the primary author of the highest scoring submitted poster abstract.

ASAM Abstract Award: Fellow-in-Training

Lea Selitsky, MD, MPH

Fellowship Program: Johns Hopkins University/Bayview Medical Center.

Program Director: Darius Rastegar, MD

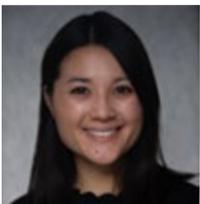

To recognize a poster's primary author who is currently enrolled in a medical fellowship program.

ASAM Abstract Award: Representation in Research

Maria Gabriela Rodriguez

To recognize a poster's primary author who is from racial and/or ethnic underrepresented minority backgrounds (ie, American Indian or Alaska Native, Black or African American, Native Hawaiian or Pacific Islander, Non-Caucasian Hispanic or Latinx).

ASAM Abstract Award: Resident

Brigid Adviento, MD, MPH

To recognize a poster's primary author who is currently enrolled in a medical residency program.

ASAM Abstract Award: Underserved Population

Nia Bhadra-Heintz, MD

To recognize the primary author of the highest scoring submitted poster abstract that addresses research on an underserved population (characterized by race, ethnicity, age, geography, gender, and/or sexual orientation).

ASAM Abstract Award: Associated Professionals

Casey Tak, PhD, MPH

To recognize a poster's primary author who is one of the following types of professional: Certified Addictions Registered Nurse (CARN), Clinical Nurse Specialist in Psychiatry (Psych-CNS), Clinical Psychologists (PhD or PsyD), Doctor of Pharmacy (PharmD), Licensed Professional Counselor (LPC), Doctor of Dental Surgery (DDS), Doctor of Nursing Science (DNP or equivalent), Doctor of Philosophy (PhD), Doctor of Veterinary Medicine (DVM), Licensed Alcohol and Drug Counselor (LADC), Licensed Marriage and Family Therapist (LMFT), Nurse Practitioner (NP), Physician Assistant (PA), Registered Nurse (RN), Social Workers, or Doctor of Dental Medicine (DMD).

ASAM ABSTRACT HONORABLE MENTIONS

Honorable Mention: Best Overall

Caroline Wunsch, MD

Honorable Mention: Associated Professional

Vinita Sharma, PhD, MPH, CPH, CHES

Honorable Mention: Associated Professional

Monica Tomlinson, PhD

Honorable Mention: Fellow-in-Training

Javier Ponce Terashima

Honorable Mention: Representation in Research

Loretta O. Akpala, MD

Honorable Mention: Representation in Research

Darlene I. Santiago Quiñones, PhD, MS

Honorable Mention: Resident

Darien Stratton, MD, MA

Honorable Mention: Underserved Population

Maria C. Mejia, MD, MPH, FACPM

“Always wonderful to meet up with colleagues, learn some more and walk away inspired and motivated to be a more skilled clinician/researcher than what I was yesterday.”

DISTINGUISHED FELLOWS, RUTH FOX SCHOLARS & NIDA YOUNG INVESTIGATOR TRAVEL AWARD RECIPIENTS

Congratulations! ASAM is proud to acknowledge the following recipients.

2022 Distinguished Fellows

Distinguished Fellows are chosen based upon an outstanding and long sustained demonstration of top-ranking competence in the field of addiction medicine, exceptional professionalism, consummate integrity, demonstrated service, significant contribution, and noted leadership.

- Nicholas Athanasiou, MD, MBA, DFASAM
- Thomas J. Brady, MD, DFASAM
- Megan Buresh, MD, DFASAM
- Indra K. Cidambi, MD, DFASAM
- Alta DeRoo, MD, DFASAM
- JoAn Laes, MD, FACMT, DFASAM
- Jonathan C. Lee, MD, DFASAM
- Soumya L. Pandalai, MD, FACP, DFASAM
- John A. Peterson, MD, DFASAM
- Arwen E. Podesta, MD, DFASAM

2022 NIDA Young Investigator Travel Award Recipients

The NIDA Young Investigator Travel Award encourages young investigators who are within 5-10 years of earning their PhD, MD, or DO degree entering the fields of addiction research and practice. The award's focus is to provide a training experience for young investigators in the area of drug addiction and infectious disease research, through conference fellowships at The ASAM Annual Conference.

- Hamed Ekhtiari, MD
- Kevin Xu, MD

2022 Ruth Fox Scholars

Ruth Fox Scholars are physicians-in-training with demonstrated academic excellence, leadership potential, interest in additional addiction medicine education, and a desire to spread this education to other physicians-in-training.

POSTER VIEWING SESSION 1

Friday, April 1, 2022
11:30 am – 1:00 pm
Great Hall Foyers, Third Floor

Poster 1 – Expanded Protective Custody Laws Did Not Increase EMS Transport After Opioid Overdoses – Alexander Zozula, MD, FAEMS

Poster 2 – Intravenous Buprenorphine for Opioid Withdrawal: A Case Series – Julia B. Nath, MD

Poster 3 – Using Academic Detailing for Educational Outreach to Reduce Opioid Prescribing Rates – Mohab Ali, MD

Poster 4 – Cannabis-Induced Atypical Stress Cardiomyopathy: A Case Report – Wendy Lin, MD; Karen D. Antwiler, MD, MBBS

Poster 5 – Prevalence and Predictors of MAT Among Reproductive-Aged Women – Jennifer Bello Kottenstette, MD

Poster 6 – Substance Abuse Research Education and Training Program (SARET) – Mia Malone; Kathleen Hanley, MD

Poster 7 – Naltrexone Prescribing from the Emergency Department – Eva Duvalyan, PharmD; Winnie Fan; Sally Graglia, MD MPH

Poster 8 – Relief Is Hard to Reach: Barriers to Medical Cannabis in Bronx, NY – Jayabhargav Annam; Jacqueline Labins; Julia Arnsten, MD, MPH

Poster 9 – Mammography Screening Disparities in Urban Patients with Substance Use Disorder – Lorien Shack, MD

★ **Poster 10 – Individuals Diagnosed with an Alcohol Use Disorder: Who Receives What Healthcare Advice?** – Vinita Sharma, PhD, MPH, CPH

Honorable Mention: Associated Professional

Poster 11 – Kratom (*Mitragyna Speciosa*) and Polysubstance Use Patterns: A Latent Class Analysis – Alyssa M. Falise, MSPH

Poster 12 – Predictors of Buprenorphine Continuation Among Postpartum People With Opioid Use Disorder – Hannah Shadowen, MPH; Andrea Gataric

Poster 13 – Social Determinants of Health & Substance Use Disorder Treatment: Scoping Literature Review – Andrew Alberth, MPH; Elisabeth Kato, MD, MRP; Sebastian T. Tong, MD, MPH, FASAM

Poster 14 – Epigenetic Clocks in Brain and Blood of Individuals with Substance Use Disorder – Brenda Cabrera Mendoza, MD, PhD

Poster 15 – Improving Intranasal Naloxone Distribution for Harm Reduction in Emergency Departments – Spencer M. Gardner, MS

Poster 16 – Buprenorphine Pre-Hospital: A Review of 3 Years of MAT Induction by EMS – Joseph M. Martin, MD, FASAM

Poster 17 – Rural and Urban Michigan Pharmacists' Perceptions of Buprenorphine for Opioid Use Disorder – Victoria Tutag Lehr, PharmD

Poster 18 – Real-World Outcomes With MOUD in Uninsured Patients: Inpatient to Outpatient Transitions – George C. Coleman, MD; Michael Baca-Atlas, MD, FASAM; Joseph B. Williams, MD, FASAM

★ **Poster 19 – Successfully Enrolling a Prospective Cohort With Opioid Use Disorder and Serious Infections** – Loretta O. Akpala, MD; Benjamin I. Bearnot, MD

Honorable Mention: Representation in Research

Poster 20 – U.S. County Jail Care of Incarcerated Pregnant Persons with Opioid Use Disorder – Kelley Benck; Kathryn M. Nowotny, PhD

Poster 21 – Leveraging Community in Addiction Recovery for Permanent Supportive Housing Residents – Safiyya Zaidi; Daphne Hancock, MPH; Nicholas J. Christian, MD, MBA

Poster 22 – New OTP Patient Retention Was Unchanged by COVID Take Home Methadone Increases – Aaron D. Greenblatt, MD; Annabelle M. Belcher, PhD

Poster 23 – Patient Attitudes Toward Open Label Placebo Treatment for Opioid Use Disorder – Timur Suhail-Sindhu, MD; Annabelle M. Belcher, PhD; Aaron D. Greenblatt, MD

Poster 24 – A Multipronged Approach to Improving Linkage to Outpatient Substance Use Treatment – Kimberly B. Cartmill, MD

Poster 25 – Family Dependency Drug Court Service Modifications During COVID-19 – Rachel K. Totaram, MHA; Fatema Z. Ahmed, MHA

Poster 26 – Health Care Utilization Outcomes of a Comprehensive Program for Perinatal Substance Use – Valerie S. Ganetsky, PharmD, MSc; Kaitlan Baston, MD, MSc, DFASAM; Iris Jones, LPC, LCADC, CCS, NCC

Poster 27 – Real-world Evaluation of an Injectable Extended-Release Buprenorphine Program – Jessica Heil, MSPH; Valerie S. Ganetsky, PharmD, MSc

Poster 28 – Project BETTER Acceptability: Technology-Based Educational Intervention for Women on MOUD – Sarah Martin; Anna B. Parlier-Ahmad, MS

★ **Poster 29 – COVID-19 Implications in Mental Health and Opioid Use Disorder Treatment: Qualitative Study** – Javier Ponce Terashima, MD

Honorable Mention: Fellow-in-Training

Poster 30 – Triangulating Substance Use, Treatment, and Mortality Trends Using Multiple Sources – Riley D. Shearer, MSc

Poster 31 – COVID-19 Vaccine Uptake and Attitudes Among People with OUD – Catherine C. Gannon; Emade Ebah, MPH

Poster 32 – Buprenorphine Treatment Disparities: The Role of the Specialty System and Insurance Status – Kevin Y. Xu, MD, MPH

Poster 33 – Cannabis Legalization and Adolescent Substance Use – Devika Bhatia, MD

Poster 34 – Opioid Use Disorder Treatment Training Impacts Future Residents' Attitudes and Perceptions – Julie A. Kmiec, DO

★ **Poster 35 – Comparing In-Person and Remote Substance Use Treatment Outcomes Before and During COVID-19 –** Monica F. Tomlinson, PhD
Honorable Mention: Associated Professional

Poster 36 – Community-Based Interventions for OUD in Black Churches: A Qualitative Study – Ebony F. Caldwell, MD, MPH

Poster 37 – Adolescent Addiction Medicine Tele-Consult Services within School-Based Health Centers – Caleb M. Lusk, MD, MPH

Poster 38 – Adolescent Substance Use: A Mixed Methods Assessment – Kenneth W. Verbos, MD, MPH, MSc

Poster 39 – Long-Term Treatment Benefit of BUP-XR for Patients Struggling to Abstain from Opioids – Daniel Rutrick, MD

Poster 40 – Critical Incidents in Colorado OTPs: Comparing Early COVID-19 Pandemic to Previous Years – Cole Bortz; Isaac Armistead, MD, MPH

Poster 41 – Advancing Patient-Centered Research and Care Through Journey Mapping: EMPOWER Project – Nichole Nidey, PhD

Poster 42 – Association Between Healthcare Costs and MOUD Treatment Linkage for Medicaid FFS Enrollees – Mohammad Usama Toseef, PhD

Poster 43 – Medication for Opioid Use Disorder Amongst People of Color in Residential Treatment – Abigayl Friedls, MSN, APRN, FNP-C, PMHNP-BC

Poster 44 – Trends in Buprenorphine Treatment Disparities During the COVID Pandemic in Massachusetts – Sarah E. Wakeman, MD

Poster 45 – Evaluating Disparities in Prescribing of Naloxone After Treatment of Opioid Overdose – Scott G. Weiner, MD, MPH

Poster 46 – Race and Ethnicity Concordance in Recovery Coaching – Aleta D. Carroll, LMHC, MBA; Jordanna L. Monteiro, MPH

Poster 47 – Implementing Substance Use Prevention Programming in Rural Utah During COVID-19 – Stacey MacArthur, PhD; Paige Wray, MS; Claire Warnick, MA

Poster 48 – Opioid Agonist Therapy Improves HIV/TB Outcomes Among PWUD/PWID in Mbeya, Tanzania – Chaita Chai, MD; Eniko E. Akom, MD, MPH

Poster 49 – Comparing Outcomes of MOUD Maintenance vs. Detoxification in Pregnant Patients with OUD – Danielle M. Anderson, MD

★ **Poster 50 – Medical Mistrust and Care Expectations Among Black Patients Seeking Addiction Treatment –** Nia M. Bhadra-Heintz, MD, MS; Jennifer K. Samiec
Award Winner: Underserved Population

★ **Poster 51 – The Female Offender Re-Entry Movement (FOR-Me): Increasing Access to SUD Treatment –** Maria C. Mejia, MD, MPH, FACPM
Honorable Mention: Underserved Population

Poster 52 – Services for Treatment of Chronic Pain at Residential Substance Abuse Treatment Centers – Christine Ramdin, PhD

★ **Poster 53 – Adopting a Buprenorphine Precision Dosing Approach Treatment for Hispanic Puerto Ricans –** Darlene I. Santiago, PhD, MS
Honorable Mention: Representation in Research

Poster 54 – Pre-Paid Phone Distribution to People With Substance Use Disorder – Alyssa Peterkin, MD; Raagini Jawa, MD, MPH

Poster 55 – The Impacts of the COVID-19 Pandemic on Syringe Service Program Staff Wellbeing – Raagini Jawa, MD, MPH

★ **Poster 56 – The Epidemiology of Pre-Hospital Care for Opioid Overdoses in a US-Border Town –** Darien Stratton, MD
Honorable Mention: Resident

Poster 57 – Prescribing Medication Assisted Therapy After Admission For Alcohol Withdrawal Syndrome – Raman D. Krimpuri, MD, MBA

Poster 58 – ASAM Levels of Care in a Specialty OB/GYN Clinic – Ashley Cantu-Weinstein; Lulu Zhao, MD

POSTER VIEWING SESSION 2

Saturday, April 2, 2022
10:00 am – 11:30 am
Great Hall Foyers, Third Floor

Poster 59 – Adverse Childhood Experiences are Associated with Overdose History in Outpatient SUD Care – Angelo M. Asheh, MD, MPH

Poster 60 – Alcohol Use in Primary Care: It's Time to Ask – Stephanie D. Nichols, PharmD, BCPS, BCPP; Mark Publicker, MD; Denise M. OConnell, MSW, LCSW, CCM, CCP

Poster 61 – Impact of an Alcohol Withdrawal Screening and Treatment Protocol for Hospitalized Patients – Brian Schonewlad; Jessica Heil, MSPH; Matthew Salzman, MD

Poster 62 – Assessment of COVID-19 Driven Changes in an Integrated OBGYN Addiction Treatment Clinic – Sumaya A. Smarony; Anna B. Parlier-Ahmad, MS

Poster 63 – AUD Readmission Risk Lower With Pre-Discharge Ketamine Infusion or Naltrexone Injection – Dale J. Terasaki, MD, MPH

★ **Poster 64** – Availability of Buprenorphine-Naloxone in Outpatient Pharmacies in South Florida – Maria G. Rodriguez; Alina Syros, MPH

Award Winner: Representation in Research

Poster 65 – Beyond Trauma-Informed Care: Insights from a Qualitative Study – Danielle Gainer, MD

Poster 66 – Bucinnazine Overdose: A Case Report – Shashi Prabha, MD

Poster 67 – Buprenorphine Rapid Microdosing for Opioid Use Disorder Treatment in the Outpatient Setting – Leslie W. Suen, MD, MAS

Poster 68 – Change the Conversation: Addiction Mentoring is Key in Palliative Care Training – Katrina S. Nickels, MD; Janet J. Ho, MD MPH

Poster 69 – Circumstances Around Cigarette Use After Enforced Smoking Abstinence in an American Prison – Rosemarie Martin, PhD

Poster 70 – Clinical Guide to Phenibut: Systematic Review of Intoxication, Withdrawal, and Management – Jeremy Weleff, DO

Poster 71 – Cognitive, Behavioral, and Emotional Outcomes of Severe Cannabis Use in Adolescents – Ozge C. Amuk Williams, MD; Rikinkumar S. Patel, MD, MPH; William E. Tankersley, MD

Poster 72 – Kratom Use in Pregnancy – Kenneth Zoucha, MD; Claudia Moore, MD

★ **Poster 73** – Increasing Naltrexone Prescriptions for Hospitalized Patients with Alcohol Use Disorder – Brigid A. Adviento, MD, MPH

Award Winner: Resident

Poster 74 – Multimodal Pain Management in a Patient Taking Extended-Release Buprenorphine – Brigid A. Adviento, MD, MPH

Poster 75 – Pilot Survey of SBIRT and Sexual Activity: Outpatient Providers' Comfort Levels Vary – Michael S. Argenyi, MD, MPH, MSW, AAHIVS

Poster 76 – Police Response to Opioid Overdoses: Impact on Future Contacts, Incarceration and Overdose – Alice Zhang, MD

Poster 77 – People Who Inhale Stimulants At Risk for COVID-19 and Other Injury – Sarah Casey; Samantha M. Sawyer, MPH; Dinah P. Applewhite, MD

Poster 78 – Under One Roof – An Integrated Clinic for SUD and HCV/HIV Treatment – Sarah Hipkens, MD

Poster 79 – Interventions Addressing Marijuana Use During Pregnancy: A Systematic Review – Destin Groff; Curtis W. Bone, MD, MHS

Poster 80 – Syringe Exchange Services in Primary Care – Paula J. Cook, MD, DFASAM; Corey Orndorff

Poster 81 – Low-Barrier Group Medical Visits for Substance Use Disorder – Paula J. Cook, MD, DFASAM

Poster 82 – Mothers' Knowledge, Attitudes, and Perception Regarding Extended-Release Buprenorphine – Miao Lai; Justin Bowman; Nancy Nickman, MS, PhD

Poster 83 – Using NCCN Recommended Tool to Screen for Opioid Misuse in Cancer Patients: Are We Overdiagnosing Addiction? – Jelyn Eustaquio; Natalie Moryl, MD

★ **Poster 84** – On-Demand, Audio-Only Buprenorphine Initiation During COVID-19 – Caroline Wunsch, MD; Liana Lum

Honorable Mention: Best Overall

Poster 85 – Opioid Overdoses During the 2020 COVID-19 Pandemic – Allison Hansen; Pooja Rangan, MBBS, MPH

Poster 86 – Outcomes of a Robust Addiction Medicine Curriculum in Undergraduate Medical Education – Cara A. Poland, MD, MEd; Jamie Alan, RPh, PharmD, PhD; Lia Bennett, MPH

Poster 87 – Patients' Satisfaction With Methadone and Buprenorphine – Ahmed N. Hassan, MD, FRCPC, MPH

★ **Poster 88** – Higher Buprenorphine Dose Associated with Treatment Retention at Low-Threshold Clinic – Lea Selitsky, MD, MPH; Megan Buresh, MD

Award Winner: Fellow-in-Training

Poster 89 – Infective Endocarditis in People Who Use Drugs: A Critical Review of Guidelines – Savitha Racha, MD

Poster 90 – Extended-Release Buprenorphine for Opioid Use Disorder: A Cost-Effectiveness Analysis – Juliet Flam-Ross; Alexandra Savinkina, MSPH

Poster 91 – Factors Associated With Non-Fatal Overdose Among Patients Enrolled in the OPTIMA Trial – Hannah E. Crepeault; Lianping Ti, PhD

Poster 92 – Impact of a Pharmacist-Initiated Naloxone Dispensing Program in Community Pharmacies – Julia K. Hunter, MD, MPH, FASAM

★ **Poster 93 – Impact of Prenatal Cannabis Use on Maternal and Neonatal Outcomes** – Kristin C. Prewitt, MD, MPH
Award Winner: Best Overall

Poster 94 – In Hospital Addiction Treatment Reduces Readmissions for Patients with Related IE – Kate Roberts, MA, MSW, LCSW; Robyn Jordan, MD, PhD

Poster 95 – Individual and Population Opioid Use Disorder Needs: A Multi-State ASAM Criteria Database – David R. Gastfriend, MD

★ **Poster 96 – Perinatal Opioid Use Disorder: Postpartum Access to Healthcare and Opioid Use Treatment** – Casey R. Tak, PhD, MPH; Melinda Ramage, FNP-BC, CARN-AP
Award Winner: Associated Professional

Poster 97 – Physician Assistant Students' Perceptions of Substance Use Disorders – Sarah Stringer, MPAS, PA-C

Poster 98 – Predispositions of Living with Disability During COVID-19 – Kishan Shah, MD; Karthik Budharaju,

Poster 99 – Prenatal Opioid Use: High Stakes Game In Need of a Team Approach – Michael D. Jacobson, DO, MPH

Poster 100 – Results From a Pilot Study Evaluating a Novel Naloxone Nasal Swab – Michael P. Frost, MD, FACP, DFASAM; Sonnie Kim, PharmD; Natalie R. Budilovsky-Kelley, PharmD

Poster 101 – Right Treatment Right Time: ED MOUD in a Single Safety-Net Hospital System – J. Hunter Scarborough, MD; James P. D'Etienne, MD, MBA

Poster 102 – Rural Versus Urban SSP Utilization in Maine: A Harm Reduction Study – Lisa W. Miller, MD

Poster 103 – Surface Based Morphometry (SBM) in Opioid Use Disorder: A Controlled Study – Abhishek Ghosh, MD, DM

Poster 104 – The New and Dynamic Nature of the Opioid Epidemic – Kyle C. Hopkins, MHA

Poster 105 – Transcranial Electrical Stimulation in Meth Craving: A Mechanistic Dose-Response RCT – Hamed Ekhtiari, MD, PhD

Poster 106 – Trauma, Resiliency, and Longitudinal Treatment Outcomes in a Pediatric MAT Clinic – Spencer M. Gardner, MS

Poster 107 – Treatment Experience of Previously Incarcerated People In Outpatient Methadone Treatment – Marina Gaeta Gazzola; Lindsay M. Oberleitner, PhD

Poster 108 – A Prescription Digital Therapeutic for OUD: 36-Week Real-World Clinical Data – Dan Malone, PhD

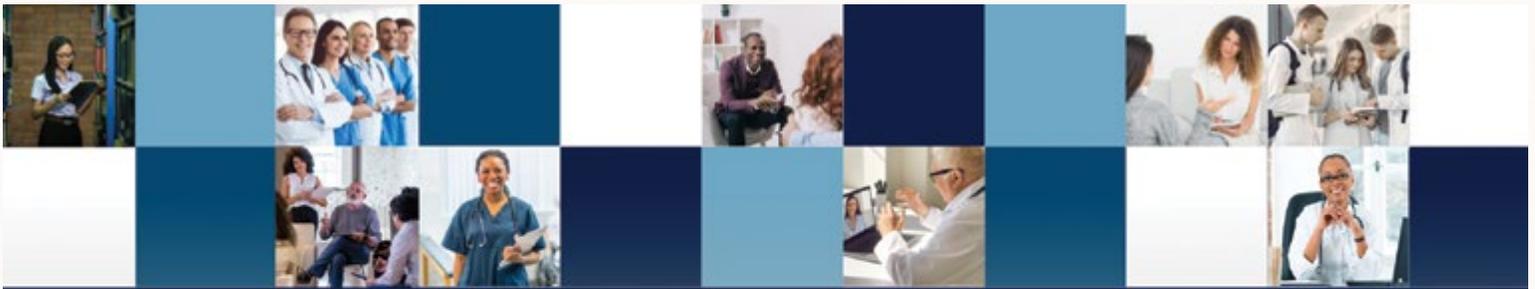

Poster 109 – “P.O. Buprenorphine” - An Alternative Method of Buprenorphine Initiation: A Case Report – Edmond Hakimi, DO; Aamani Chava, MD

Poster 110 – Decreased Stigma & Increased Health Equity through SUD Focused Nurse Practitioner Education – Michelle Anderson, DNP, APRN, FNP-BC, FAANP; Gina Clarkson, PhD, APRN, NNP-BC

Poster 111 – Disparities in Naloxone Prescriptions During the COVID-19 Pandemic – Li Li, MD, PhD

Poster 112 – Exploring the Association Between Political Affiliation and Alcohol Control Policies – Victor P. Kekere, MD, MS; Valentine Somto, MD, MPH

Poster 113 – Two Cases of Rapid Titration of Methadone in the Hospital Setting – Clare Landefeld, MD, MS; Ogorchukwu F. Omede, MD

ASAM Connect

You don't have to treat addiction alone.

Build a community of support, by connecting and engaging directly with other members on special topics of interest to you.

Continuing Medical Education (CME/CE/MOC)

ASAM has been awarded the highest level of Accreditation with Commendation by the Accreditation Council for Continuing Medical Education (ACCME) as a provider of continuing medical education (CME) for physicians.

Accreditation in the ACCME System seeks to assure the medical community and the public that ASAM delivers education that is relevant to clinicians' needs, evidence based, evaluated for its effectiveness, and is independent of commercial influence.

ACCME Accreditation Statement

The American Society of Addiction Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AMA Credit Designation Statement

The American Society of Addiction Medicine designates this live activity for a maximum of **19.5 AMA PRA Category 1 Credit(s)TM**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Academy of Family Physicians (AAFP)

The AAFP has reviewed The ASAM 53rd Annual Conference and deemed it acceptable for up to 19.50 Live AAFP Prescribed credits. Term of Approval is from 03/31/2022 to 04/03/2022. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Academy of Physician Assistants (AAPA)

This program is not yet approved for CME credit. Conference organizers plan to request 19.5 AAPA Category 1 CME credits from the AAPA Review Panel. The total number of approved credits is yet to be determined.

American Association Nurse Practitioners (AANP)

This education activity will be submitted to the American Association of Nurse Practitioners for approval of up to 19.5 contact hours of accredited education.

NAADAC, the Association for Addiction Professionals

This activity has been approved by the American Society of Addiction Medicine, as a NAADAC Approved Education Provider, for educational credits. NAADAC Provider #295, ASAM is responsible for all aspects of the programming.

National Board for Certified Counselors ACEP

The American Society of Addiction Medicine has been approved by NBCC as an Approved Continuing Education Provider, ACEP No. 7062. Programs that do not qualify for NBCC credit are clearly identified. The American Society of Addiction Medicine is solely responsible for all aspects of the programs.

California Association for Drug/Alcohol Educators (CAADE)

This educational program is approved by CAADE: #CP40 999 1222

California Association of DUI Treatment Centers (CADTP)

This educational program is approved by CADTP: #205

California Consortium of Addiction Programs and Professionals (CCAPP)

This educational program is approved by CCAPP: #OS-20-330-1222

Maintenance of Certification (MOC)

The ASAM 53rd Annual Conference and 3 pre-courses meet the CME requirements for the following primary boards:

- American Board of Medical Specialties (ABMS)
- American Board of Preventive Medicine (ABPM)
- American Board of Anesthesiology (ABA)
- American Board of Pediatrics (ABP)
- American Board of Internal Medicine (ABIM)
- American Board of Surgery (ABS)
- American Board of Psychiatry and Neurology (ABPN)
- American Board of Addiction Medicine (ABAM)
- Royal College of Physicians and Surgeons of Canada (RCPS)

**Learners can claim MOC points for pre-courses and posters for the primary boards and organizations listed above*

Continuing Education Credits (CEUs)

Non-physician participants will receive a certificate of attendance upon completion of the activity and an online evaluation confirming their participation. Participants should submit his/her certificate of attendance to their professional organization/institute.

Disclosure Information

In accordance with disclosure policies of ASAM and the ACCME, the effort is made to ensure balance, independence, objectivity, and scientific rigor in all CME activities. These policies include mitigating all possible relevant financial relationships with ineligible companies for the Planning Committees and Presenters. All activity Planning Committee members and Presenters have disclosed relevant financial relationship information. The ASAM CME Committee has reviewed these disclosures and determined that the relationships are not inappropriate in the context of their respective presentations and are not inconsistent with the educational goals and integrity of the activity.

Implementing *The ASAM Criteria*®

ASAM CRITERIA®

The ASAM Criteria is the nation's most respected, comprehensive, and widely used set of guidelines for determining appropriate levels of care for each patient based on severity and multidimensional needs.

Tools to Support the Implementation of The ASAM Criteria®

ASAM LEVEL OF CARE CERTIFICATION

Independent verification of treatment programs' ability to deliver services consistent with The ASAM Criteria Level of Care standards.
www.asamcertification.org

ASAM CONTINUUM™

Software for conducting a multidimensional assessment with decision support for level of care recommendations.
www.asamcontinuum.org

ASAM CRITERIA COURSE

Competency-based learning activities to support use of The ASAM Criteria in practice. Both live and e-learning courses available.
www.asam.org/education

ASAM LEVEL OF CARE CERTIFICATION

Resources to Prepare for Certification:

The ASAM Level of Care Certification Manual describes the level of care standards derived from from *The ASAM Criteria*, the rating elements that will be assessed during the certification survey, and the policies, procedures, and systems a program should have in place to meet the standards.

The ASAM Level of Care Certification Preparation Workbook outlines the rating elements that will be assessed by certification surveyors and provides a template for programs to conduct self-assessments to identify strengths and areas for improvement.

The ASAM Criteria textbook is the authoritative source of the standards for multidimensional assessment, patient placement, and level of care service characteristics for each level of care.

ASAM Level of Care Certification Training Modules and Webinars are designed to guide attendees through the standards and rating elements, and describe the path to achieving certification in their organizations, with guidance on avoiding common pitfalls.

Learn more at the ASAM Booth or at these sessions:

Saturday, April 2 | 4:30 pm – 5:30 pm | Atlantic Ballroom 2&3, Second Floor

ASAM Clinical Practice Guidelines

National Practice Guideline for the Treatment of Opioid Use Disorder 2020 Focused Update

ASAM developed the **National Practice Guideline** to provide information on evidence-based treatments for opioid use disorder, including all FDA-approved medications.

Pocket guides, apps, CME, Webinars, and more available at:

<https://bit.ly/ASAM-NPG>

Clinical Practice Guideline on Alcohol Withdrawal Management

This document is intended to aid clinicians in their clinical decision making and management of patients experiencing alcohol withdrawal. It also provides updated information on evidence-based strategies and standards for care for alcohol withdrawal management in both ambulatory and inpatient settings. This document also addresses current practice concerns and provides clear guidance that will lead to more consistent treatment practices in the field.

<https://bit.ly/ASAM-CPG>

Stop by the **ASAM Booth**

ASAM Resources

Books. News. Podcasts. Journal.

ASAM WEEKLY

ASAM Weekly is a digital source of timely, useful addiction news, covering everything from treatment practices, addiction research, advocacy, and social issues.

ASAM Principles of Addiction Medicine, 6th edition

For over two decades, The ASAM Principles of Addiction Medicine (PAM) has provided the core knowledge in the speciality field by blending underlying scientific principles with practical essentials of clinical management.

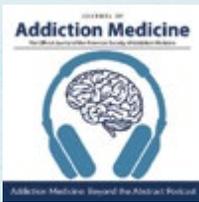

Journal of Addiction Medicine (JAM)

The Journal of Addiction Medicine is a peer-reviewed publication focusing on the latest research developments in addiction medicine, as well as on treatment innovations and ethical, economic, forensic, and social topics.

ASAM Essentials of Addiction Medicine, 3rd Edition

The companion book to Principles of Addiction Medicine, Essentials is streamlined in a concise, easy-to-navigate format for quick reference and access to authoritative information on pharmacology, diagnosis, assessment, and early intervention.

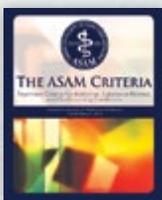

Beyond the Abstract: Addiction Medicine Podcast

An Ideal opportunity for readers and others interested in addiction medicine to get a closer look at the perspective behind research articles.

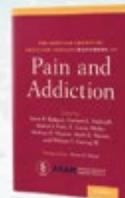

ASAM Handbook of Addiction Medicine, 2nd Edition

Ideal for the general practitioners, this handbook is also an excellent reference for addiction medicine community. Handbook provides practical, evidence-based guidance for identifying and treating substance use disorders.

The ASAM Criteria, 3rd Edition

The most widely used and comprehensive set of guidelines for placement, continued stay and transfer/discharge of patients with addiction and co-occurring conditions that improve the quality of addiction treatment.

ASAM Handbook of Pain and Addiction

The Handbook provides authoritative clinical guidance addressing the complex relationship between addiction and pain. General practitioners and ADM professionals will find this book useful in their practices.

Pocket Addiction Medicine Notebook

A portable reference that can provide key clinical information about vital treatment in addiction medicine seconds.

Visit the ASAM Booth or www.ASAM.org to purchase.

eLearning Center & Claiming Credit

CLAIMING CREDIT:

Claim credit anytime between April 4, 2022 and April 4, 2023.

Full Annual Conference and Pre-Conference Course Registrants:

1. Type <https://eLearning.ASAM.org> into your web browser.
2. Login to the eLearning Center (eLC), using your ASAM.org username and password (what you used when registering for the conference/pre-conference course).
3. After logging in, select "Dashboard" from the left menu (on mobile devices, you will find "Dashboard" by clicking the three horizontal lines in the header).
4. Locate your Conference or Pre-Conference Course. "ASAM 53rd Annual Conference" will be under "Packages" and the Pre-Conference Courses will be under "On-Demand Products".
5. Click "Content." Annual Conference Attendees will also have to find the "Evaluation & Certificate - Live Attendees of ASAM 53rd Annual Conference" and click "View."
6. Find the box that says "Complete Evaluation" and click the button that says, "Fill out Survey."
7. After you have completed the evaluation, select the box labeled "Claim Credit & Certificate" and click the button that says, "Claim Medical Credits."
8. Select your provider type and the number of hours you attended, then click "Submit."
9. Print out your certificate or save it to your device.

Daily Annual Conference Registrants:

Daily Annual Conference registrants will not claim credit in the ASAM eLC and will receive evaluation and credit instructions via email by April 30, 2022.

WATCHING SESSIONS ON-DEMAND:

Relive the conference or catch sessions you missed! Full registrants of ASAM 53rd Annual Conference and Pain & Addiction: Common Threads receive complimentary access to their sessions on-demand in the ASAM eLearning Center. On-demand sessions will be available from May 1, 2022 - May 1, 2025. Others not registered for the ASAM 53rd Annual Conference or the Pain & Addiction: Common Threads may purchase sessions on-demand in the ASAM eLearning Center when they become available.

The ASAM Motivational Interviewing Workshop and The ASAM Fundamentals of Addiction Medicine Workshop will NOT be recorded or available for online purchase.
